

# Jameson Road Landfill Site Community Update

Month	Number of reports	Types of report
April	1157	Mainly Odour
May	525	Mainly Odour
June	171	Mainly Odour

## Regulatory enforcement

We served Transwaste with a [Regulation 37 Enforcement Notice](#) on 24 May suspending the acceptance of waste onto the site and we require further work to be delivered by Transwaste.

The Suspension Notice and Requirement to take steps is still in place, and Transwaste have been given until 5pm on 9 July to comply with the notice. Our site inspections confirm that Transwaste is continuing works to cap the problem areas of the site.

Our officers are maintaining odour checks and drone flights in the vicinity, and we welcome members of the public to continue to report odours and concerns they might have in regard to the operations on site.

If Transwaste meets the requirements set out in Schedule 2, the suspension notice will be lifted. However, our priority remains minimising off-site odour issues, and this decision would be taken following a robust and detailed inspection.

If significant odour problems persist even after the operator complies with the notice, we may take further steps, including a further suspension on waste acceptance at the site.

We have been asked by members of the public to share more detail on our inspections at the site; we will be able to share more detail by the end of July. All inspection reports that would form part of any public register information will be published on our dedicated webpage at:

## Multi-Agency Working

We are continuing to work with partners, Wyre Borough Council, Lancashire County Council and UK Health Security Agency. Each organisation has a different role in providing advice or regulating under specific legislation Jameson Road. Please see our [dedicated page](#) for more information on the roles and responsibilities of each of the agencies involved in dealing with this incident.

Page 1 of 2

The current focus of the multi-agency group is to:

- ensure that the site fully complies with their environmental permit,
- provide advice and guidance to the community,
- support the response to impacts experienced by the residents of Fleetwood and the surrounding areas.

### **Reporting the odour**

Reporting helps us to build up a picture of the extent and impact of the odour issue within the community. We encourage people to continue to report to us on our 24-hour incident hotline:

**0800 807060**
