TRANSPORT AND WORKS ACT 1992
TRANSPORT AND WORKS (INQUIRIES PROCEDURE) RULES 2004
TOWN AND COUNTRY PLANNING ACT 1990
BOSTON BARRIER ORDER

DOCUMENT EA/5/2
APPENDICES TO PROOF OF EVIDENCE
OF
CAPTAIN PETER M CARTHUR
NAVIGATION

FOR
ENVIRONMENT AGENCY

MARCH 2017
LIST OF APPENDICES

Appendix 1  Relevant rules of the International Regulations for the Prevention of Collisions at Sea (COLREGS)

Appendix 2  Figures

Figure 1:  Fenland drainage areas that create the Rivers Witham and Haven

Figure 2.1:  Time-lapse image showing an inland waterway cargo barge rounding the bend of a river and demonstrating side-slippage

Figure 2.2:  Proposed temporary relocation site of WSC, on Haven north bank, downstream of PoB wet dock

Figure 3:  Speed limit notice board at proposed WSC temporary relocation site, downstream of PoB wet dock

Figure 4:  Boston Belle, seasonal passenger excursion vessel

Figure 5:  Grand Sluice at low-tide level

Figure 6:  Swing Bridge at low tide looking towards Black Sluice

Figure 7:  Town Bridge at high tide event

Figure 8:  Extreme position of moored grain ship – baseline layout

Figure 9:  Diagram agreed with owner / operator of Boston Belle (Mr Rodney Bowles) explaining why the effective safe navigational width of the River Haven at time of his usual navigational passage is only 28 mtrs.

Figure 10:  Cross-section of the river at the proposed barrier site comparing elevations of existing bottom levels with proposed bottom post-construction

Figure 11:  Draught marks of largest Boston fishing boat

Figure 12:  Boston Fishing boats moored up alongside each other at London Road Moorings
Figure 13: Restricted sight-lines as currently experience by an inbound narrowboat with a vessel located on Silo berth.

Figure 14: Post-construction layout

Figure 15: Position of moored grain ship – post-construction layout

Figure 16: Comparison of navigation fairway widths – post-construction barrier navigation channel versus present moored ship

Appendix 3 MGN 199M Dangers of Interaction

Appendix 4.1 Summary - Vessel Hydrodynamic Calculation

Appendix 4.2 Fishing Boat hydro calculations 1

Appendix 4.3 Fishing Vessel hydro calculations 2a – Haven at 8 kts

Appendix 4.4 Fishing Boat hydro calculations 3

Appendix 4.5 Fishing Boat hydro calculations 2 – Barrier at 4 kts

Appendix 4.6 Wide Boat hydro calculations 4 – Haven at 4 kts

Appendix 4.7 Wide Boat hydro calculations 5 – Barrier at 4 kts

Appendix 4.8 Narrow Boat hydro calculations 6 – Haven at 4 kts

Appendix 4.9 Narrow Boat hydro calculations 7 – Barrier at 4 kts

Appendix 4.10 Boston Belle hydro calculations 8 – Haven at 4 kts

Appendix 4.11 Boston Belle hydro calculations 9 – Barrier at 4 kts

Appendix 5 Squat and Underkeel Clearance

Appendix 6 New thinking in ship generated hydrodynamic fields: introducing concepts for predicting bank situation and rejection
