

#### **4.2.1 Pre-application advice across all EPR regimes and sectors**

We recognise that providing good pre-application advice is an important part of the application process. We plan to retain some contribution to pre-application work within the baseline application fee to cover essential advice such as the type of permit required, signposting to application forms and what accompanying documents should be submitted. Any further advice at pre-application stage can be requested as part of our discretionary enhanced pre-application advice service - Section 4.3.1.
