This site inspection was scheduled to provide the Environment Agency Onshore Oil & Gas Programme Board members with a visit to Preston New Road. The opportunity was taken to check compliance with the storage of extractive waste against the requirements of the waste management plan. The management of waste has recently been the subject of an audit and will be assessed in a separate Compliance Assessment Report.

Extractive waste observed on site arising from drilling operations included oil based muds and drill cuttings. All waste was stored appropriately and in accordance with the waste management plan.
