27 June 2025

Dear Sir / Madam

EPR/JB3107HT - Environmental Permit Variation – Small Heath Rail Sidings

We are pleased to submit on behalf of GRS Rail Services Limited (GRS) an application to vary Environmental Permit number EPR/JB3107HT (the permit) for the inert and excavation waste treatment facility operated by GRS at Small Heath Rail Sidings, Birmingham. Further details of the proposed changes are presented in the application.

Based on the Environment Agency (Environmental Permitting) (England) Charging Scheme 2022: amendments up to 1 October 2024 we have calculated that the application fee payable to the Environment Agency of £5,206 based on the fee of £3,965 for a normal variation of a facility for the physical treatment of non-hazardous waste (reference 1.16.12) plus £1,241 for the assessment by the EA of the Dust and Emissions Management Plan (DEMP). We understand that the fee of £5,206.00 will be paid shortly by the operator via electronic transfer (BACS).

We enclose a letter confirming that Jamie Skipper is authorised to complete the declaration in Section 5 of the Application Form Part F1 on behalf of GRS.

Due to the large file size of the application documents we have uploaded the documents to WeTransfer that is accessible via the link below.

<https://we.tl/t-Xm0oap9JJH>

We look forward to receiving your written confirmation that the application has been received and 'duly made'. Please do not hesitate to contact us if you have any queries or need any further information.

Yours faithfully

Andy Wright
