

About this consultation

B8 1AP, European Metal Recycling Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for European Metal Recycling Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/JB3509MS/A001
- Regulated facility type: European Metal Recycling Limited (EMR) has provided a bespoke permit application for an Electric Vehicle (EV) battery recycling and research facility at a site on Duddeston Mill Trading Estate, Birmingham, B8 1AP.

The site will accommodate two main elements, a research facility assessing how best to treat metals, batteries and vehicle components and other wastes and an EV battery recycling facility.

The proposed facility will treat up to 2,000 tonnes per annum of non-hazardous waste, a small quantity of hazardous waste and up to 250 vehicles a year. Activities may include dismantling, sorting and size reduction for further recycling and recovery operations by third parties.

- Regulated facility location: E M R Duddeston Mill, Duddeston Mill Road, Birmingham, B8 1AP

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.
