ST Classification: OFFICIAL PERSONAL

Hi Kristina,

As per my earlier telephone conversation, the technical team have come back to me and stated that simply, we have not changed our approach since 2016 or had any alternative guidance issued by the EA, so our assessment remains as detailed in your previous email.

Once again, please accept my apologies for the delayed response.

Regards,

Rakesh Patel

Hello Kristina,

I do apologise for the delayed response to you. I am still awaiting a response from the technical team on this, so I will chase again for you.

Regards,

Rakesh Patel

Subject: STW Risk assessment

Caution: This is an external email originating outside Severn Trent. Think before you click on links or open attachments.

Hi Rakesh

I was wondering whether you have been able to check whether the principles of the risk assessment applied by STW outlined in my previous email (attached) has changed with respect of WWTP inflows and their potential risk on the operation of the WWTP as well as on final discharge quality from WWTP to controlled waters.

I am hoping to submit this application by the end of next week and wondered whether you will be able to get a response to me by then.

Thank you again for your help and Kind Regards
Kristina
