

1.0 MANAGEMENT SYSTEMS SUMMARY

Site Name	Mannings Heath Transfer Station
Activity	Waste Transfer and Non-Hazardous Treatment
Environmental Permit Reference	EPR/EB3708UG
Location	Mannings Heath Road, Parkstone, Poole, Dorset, BH12 4NH
National Grid Reference (NGR)	SZ 03904 94147

A summary of the complete management system for the site is detailed within Tables 1 to 4 below. This includes site specific procedures (Tables 1 and 2) and site infrastructure plans and drawings (Table 3). The management systems review history is contained within Table 4.

These site-specific documents are accompanied by SUEZ's overarching Integrated Management System (IMS) comprising quality, environmental and health and safety requirements which are certified to ISO 14001, ISO 9001 and ISO 45001 standards. It should be noted that SUEZ IMS system is a live system and is continually updated. The full SUEZ IMS covers all SUEZ activities, therefore not all sections of the IMS are applicable to a particular site type. References to relevant sections are made within the site-specific documents.

Together, the site-specific documents and IMS describe how SUEZ UK Environment Ltd as the permitted operator will minimise the risk of pollution from the activities at Mannings Heath Transfer Station (the site) which is operated under Environmental Permit (the permit) EPR/EB3708UG (EAWML 23658) originally issued 09 April 1991.

The site operations have been certified to ISO14001, ISO 9001 and ISO 45001.

TABLE 1 – STANDARD SITE SPECIFIC MANAGEMENT SYSTEMS

Ref	Title	Version	Revision Date
1.0	Management System Summary	1.0	June 2025
1.1	Site Infrastructure Plan(s)	See Table 3
