Jonty,

**EPR/BS79511B Pilsworth South Landfill addition of MRF**

Valencia Waste Management are looking at ways to divert more waste from landfill and improve recycling rates. As a result they hope to make an amendment to the current application to install a MRF and RDF production facility at Pilsworth South Landfill, to allow up to 250,000 tonnes of waste to be treated.

Please find attached updated documents reflecting this change.

Alison Cook
