

Briefing 4: Energy Recovery Facility, Ford Circular Technology Park, Ford

Permit number: **EPR/MP3904BD**

25 November 2021

Update

Ford Energy from Waste Limited applied to us for an environmental permit to operate an energy recovery facility at Ford Circular Technology Park, between Ford and Yapton in West Sussex. We held a consultation to seek your views, which closed on 23 June 2021.

As part of the determining process, we issued Ford Energy from Waste Limited with a Schedule 5 Notice. This Notice listed a number of points we wanted further information on. A copy of this Schedule 5 is available on our consultation page <https://consult.environment-agency.gov.uk/psc/bn18-0hy-ford-energy-from-waste-limited/>. The applicant was required to provide this information by 8 October 2021.

We have received a response from the applicant and this has now been uploaded to the consultation page (link above) for information only. We are currently reviewing their response as part our determination. Further Schedule 5 Notices can be issued if we identify other aspects during determination which require additional information to be provided or if we are not satisfied with the information provided in response to a Schedule 5 Notice.

How can I get further information?
