

Briefing 5: Energy Recovery Facility, Ford Circular Technology Park, Ford

Permit number: **EPR/MP3904BD**

26 November 2021

Update

Ford Energy from Waste Limited applied to us for an environmental permit to operate an energy recovery facility at Ford Circular Technology Park, between Ford and Yapton in West Sussex. We held a consultation to seek your views, which closed on 23 June 2021 and we were in the process of determining the application. <https://consult.environment-agency.gov.uk/psc/bn18-0hy-ford-energy-from-waste-limited/>.

On 26 November 2021, we were notified by the applicant that they wish to withdraw this application and therefore we will no longer be determining this environmental permit. Withdrawing a permit application does not mean that they cannot re-apply to us at a later stage. They have also withdrawn their related planning application [Plans for Ford Circular Technology Park withdrawn](#)
