

## **BATPA08/13**

### **Non Technical Application Summary**

#### **Introduction**

The centre of the site is located at approximate National Grid Reference (NGR) 354591, 181034. The site is currently operated as an existing waste recycling facility which accepts up to 250,000 tonnes per annum of construction and demolition wastes which are processed into re-usable aggregate products.

The permit variation is to increase the site permit boundary, to increase the annual throughput, operational hours and to add a washing activity to the existing limits of activities for the washing of aggregates and soils.

To enable B&A Group to meet the increased demand for recycled products the operator is seeking to increase the operating hours at the site to 24 hour working, increase the throughput to 450,000 tonnes of construction and demolition wastes per annum, increase the site permit boundary.

- 06:30 to 16:30 – 10 hour working shift
- 16:30 to 17:30 – Site maintenance/shut down
- 17:30 to 03:30 – 10 hour working shift
- 03:30 to 04:30 - Site maintenance/shut down

Pre-application advice – enhanced service was sought on 26/05/2023 reference EPR/BB3204CV/V005.

#### **Site Location**

The site is located off of Severn Road, Hallen, South Gloucestershire, BS10 7SE.

#### **Control Measures from the Risk Assessment**

The pollution risk assessment revealed the following control measures must be adhered to:

- Material acceptance
- Plant and machine silencers
- Mud and Dust Control
- Water Management
