

Application for an environmental permit

Part A – About you

When to complete the Part A form

Complete this part of the application form if you are:

- applying for a new permit (apart from exclusion 1 below)
- applying to vary (change) an existing permit (apart from exclusion 2 below)
- notifying or applying for a permit surrender (apart from exclusion 3 below)
- notifying or applying to transfer an existing permit to yourself

Exclusions – when you do not need to complete this form

You do not need to complete this form if you are:

1. applying for a new permit for:
 - intensive farming – see [Part B3.5 form](#)
 - discharge of treated domestic sewage up to 20 cubic metres a day to surface water – see [Part B6.5 form](#)
 - discharge of treated domestic sewage up to 15 cubic metres a day into ground – see [Part B6.5 form](#)
 - existing small discharges of sewage to ground in a source protection zone 1 – see [Part B6.6 form](#)
 - a medium combustion plant standard rule permit – see [MCP guidance](#)
 - a specified generators standard rule permit – see [SG guidance](#)
2. applying for a variation to:
 - make an administrative change – see [Part C0.5 form](#). Note: you will still need to complete this Part A form if you're changing a name or address on the permit.
 - make a non-administrative change to an intensive farming permit – see [Part C3.5 form](#).
3. notifying us of a water discharge or groundwater activity permit surrender – see [Part E1 form](#). Note: this exclusion does not apply to surrender applications for standalone groundwater activities at onshore oil and gas facilities. You will need to complete this Part A form for those surrender applications.

Do not use this form for radioactive substance regulation permitting. See [RSR: environmental permit application forms](#)

Completing the form

Visit our website to check this is the latest version of the form. See [Application for an environmental permit: part A about you](#).

Please read through the form before completing it. We expect it will take less than 1 hour to complete if you have all the necessary information available.

The form can be:

saved onto a computer and then filled in. We recommend using Adobe Acrobat software to avoid any compatibility issues.

- printed off and filled in by hand. Please write clearly in the answer spaces. If you need to use the links in this form, you can access the electronic version here: <https://www.gov.uk/government/publications/application-for-an-environmental-permit-part-a-about-you>

Other forms you will need to complete

You will also need to complete other parts of the application form. This depends on your facility type and what you are applying for:

- for a new bespoke permit, see: [New bespoke environmental permit: application forms](#)
- for a new standard rules permit, see: [Application for an environmental permit: part B1 standard facilities permit](#)
- If you already have a permit, see [Change, transfer or cancel your environmental permit](#)

1 About you

Tick the box that describes you as the applicant.

- An individual. Now go to **section 2**.
- More than one individual. Now go to **section 3**.
- A public body. Now go to **section 4**.
- A ministerial government department. Now go to **section 5**.
- A registered company, limited liability partnerships, or other incorporated body. Now go to **section 6**.

To apply, you must be the legal operator of the activity or facility. See: **Legal operator and competence requirements: environmental permits**

2 Applications from an individual

2.1 Name of applicant

Title (Mr, Mrs, Miss and so on) (optional)

First name

Last name

2.2 Address of applicant

Address

Postcode

2.3 Contact details for applicant

Email

Telephone number

Use a business address and contact details where possible. Otherwise use personal details. Individuals based overseas must provide an address for service in the UK.

Now go to [question 7.2](#)

3 Applications from more than one individual

3.1 Names and addresses of individuals

This could be, for example:

- individuals acting jointly
- individuals that are partners in a general or limited partnership (but not a limited liability partnership)
- unincorporated charities, trusts and associations, (unless we have agreed the charity, trust or association is a legal entity)

For unincorporated trusts, charities and societies provide the names and addresses of all governing individuals. For example:

- trustees
- chairperson
- treasurer
- secretary
- or a person with a similar position

For applications from other individuals provide the names and addresses of all individuals. However, for applications involving large numbers of individuals, a smaller number of individuals can be nominated. These individuals will be named on the permit and responsible for controlling activities. For example, where a group of 20 individuals are involved, you may decide to identify four individuals as being the operator. This is only applicable to permit and transfer applications. For variation and surrender applications, provide up to date details of the permit holders.

Use a continuation sheet as necessary.

3.1a Name of first individual

Title (Mr, Mrs, Miss and so on) (optional)

First name

6.6 Charity Commission number (if any)

6.7 Additional information if not registered with Companies House or The Charity Commission (if applicable)

This question does not apply to variation or surrender applications.

If you are not registered with Companies House or The Charity Commission, supply:

- evidence that your company or corporate body is a legal entity
- a description of how you will be the legal operator if you are an overseas company without a UK presence.

Document reference for evidence/description:

Evidence of legal entity could, for example, include:

- a copy of your Certificate of Incorporation for companies.
- a copy of your Memorandum and Articles of Association for incorporated charities and trusts

Now go to section 7: Contact details

7 Contact details

7.1 Contact for receipt of official documents

This question does not apply to applications from an individual. We'll send documents to the individual named in [section 2](#) of this form. Go to [question 7.2](#) instead.

Provide the details of someone we can send official documents to, such as notices and copies of permits.

7 Contact details, continued

Important: this must be the permit holder and cannot be an agent or consultant acting on their behalf.

For companies this person must be a company secretary, clerk or a director.

For partnerships this must be a person with control or management of the partnership.

For applications from more than one individual, provide details of everyone who is to receive official documents. You can include all individuals or nominate one or more people. Add a continuation sheet where necessary.

If relevant, we'll also send a copy of official documents to the application contact.

8 Environmental record check

Question 8.1 applies if you are:

- applying for a new installation or waste permit
 - applying to transfer an existing installation or waste permit
 - applying to add a relevant waste operation to a permit that has not previously had one
- ‘Relevant waste operations’ are one or both of the following:
- a waste operation (not carried on at an installation or by means of a Part B mobile plant).
 - a specified waste management activity (certain installations carrying out waste management activities).

For further details of relevant waste operations, see: **The Environmental Protection (Miscellaneous Amendments) (England and Wales) Regulations 2018**

We use the date of birth information to check your environmental record.

If this question does not apply, go to **section 9**

8.1 Complete the date of birth information in **Appendix 1** for the applications set out above.

Tick the box to confirm that Appendix 1 has been completed where required.

Then go to **section 9**

Now go to **question 3d**

3d Management systems (all)

You must have an effective, written management system in place that identifies and reduces the risk of pollution. You may show this by using a certified scheme or your own system.

Your permit requires you (as the operator) to ensure that you manage and operate your activities in accordance with a written management system.

You need to be able to explain what happens at each site and which parts of the overall management system apply. For example, at some sites you may need to show you are carrying out additional measures to prevent pollution because they are nearer to sensitive locations than others.

For waste and installation permits only: your management system must also explain your resilience to climate change.

You can find guidance on management systems on our website at <https://www.gov.uk/guidance/develop-a-management-system-environmental-permits>

Tick this box to confirm that you have read the guidance and that your management system will meet our requirements

4c Directly into relevant territorial waters or coastal waters within the sea fisheries district of a local fisheries committee?

No

Yes Please name the fisheries committee

4d Is the installation on a site for which:

4d1 a nuclear site licence is needed under section 1 of the Nuclear Installations Act 1965?

No

Yes

4d2 a policy document for preventing major accidents is needed under regulation 5 of the Control of Major Accident Hazards Regulations 2015, or a safety report is needed under regulation 7 of those Regulations?

No

Yes

5 Supporting information

5a Provide a plan or plans for the site

But not any mobile plant

Clearly mark the site boundary or discharge point, or both. The site plan must be legible at A4 size, drawn to scale and include a scale bar.

5 Supporting information, continued

Also include site drainage plans, site layout plans, and plant design drawings/process flow diagrams (as required). (**See the guidance notes on part B2.**)

Document reference/s of the plans

5b Provide the relevant sections of a site condition/baseline report if this applies

See the guidance notes on part B2

Document reference of the report

If you are applying for an installation, tick the box to confirm that you have sent in a baseline report

5c Provide a non-technical summary of your application

See the guidance notes on part B2 for what needs to be included.

Document reference of the summary

5d Are you applying for an activity that includes the storage of combustible wastes?

This applies to all activities excluding standalone water and groundwater discharges.

No

Yes Provide a fire prevention plan (**see the guidance notes on part B2.**)

Document reference of the plan

6 Environmental risk assessment

Provide an assessment of the risks each of your proposed regulated facilities poses to the environment. The risk assessment must follow the methodology set out in 'Risk assessments for your environmental permit' at **Risk assessments for your environmental permit – GOV.UK (www.gov.uk)** or an equivalent method.

For air dispersion modelling see: **Environmental permitting: air dispersion modelling reports – GOV.UK (www.gov.uk)**

Appendix 1 – Low impact installation checklist

Low impact installation criterion (see the Part B2 guidance notes)	Section of supporting document that shows how your proposed activity meets the LII criterion	Do you meet LII criterion?
A – Management techniques		Yes No
B – Wastewater		Yes No
C – Abatement systems/ releases to air		Yes No
D – Emissions to groundwater		Yes No
E – Waste production		Yes No
F – Energy consumption		Yes No
G – Accident prevention		Yes No
H – Noise		Yes No
I – Emissions of polluting substances		Yes No
J – Odours		Yes No
K – Compliance history		Yes No

If you answered ‘No’ to any of the questions above, your installation cannot be considered as a low impact installation.

Application for an environmental permit Part B3 – New bespoke installation permit

When to complete the Part B3 form

Complete this part of the application form if you are applying for a new bespoke permit for an installation.

Completing the form

Visit our website to check this is the latest version of the form. See **Application for an environmental permit: part B3 new bespoke installation**.

Please read through the form and **Part B3 guidance notes** before completing it.

We expect it will take less than 3 hours to complete if you have all the necessary information available.

The form can be:

- saved onto a computer or device and then filled in. We recommend using Adobe Acrobat software to avoid any compatibility issues.
- printed off and filled in by hand. Please write clearly in the answer spaces. If you need to use the links in this form, you can access the electronic version here: **<https://www.gov.uk/government/publications/application-for-an-environmental-permit-part-b3-new-bespoke-installation>**.

Other forms you will need to complete

In addition to this part of the form, you will also need to complete:

- **Part A: about you**
- **Part B2: General – new bespoke permit**
- **Part F1: charges and declarations**

When not to use this form

Do not use this form if you want to apply for an intensive farming installation permit. Use the **Part B3.5** form instead.

1 What activities are you applying for?

Fill in Table 1a below with details of all the activities listed in schedule 1 or other references (see note 1) of the Environmental Permitting Regulations (EPR) and all directly associated activities (DAAs) (in separate rows), that you propose to carry out at the installation.

Fill in a separate table for each installation you are applying for. Use a separate sheet if you have a long list and send it to us with your application form. Tell us below the reference you have given the document.

Document reference

1 What activities are you applying for? continued

Table 1a – Types of activities

Schedule 1 listed activities						
Installation name	Schedule 1 or other references (See note 1)	Description of the activity (See note 2)	Activity capacity (See note 3)	Annex I (D codes) and Annex II (R codes) and descriptions	Hazardous waste treatment capacity (if this applies) (See note 3)	Non-hazardous waste treatment capacity (if this applies) (See note 3)
If there are not enough rows, send a separate document and give the document reference number here	Put your main activity first			For installations that take waste only	For installations that take waste only	For installations that take waste only
Directly associated activities (See note 4)						
Note: if the DAA is a Medium Combustion Plant or Specified Generator (MCP/SG) you must also fill in Part B2.5 form .						
Name of DAA If there are not enough rows, send a separate document and give the document reference number here		Description of the DAA (please identify the schedule 1 activity it serves)				
For installations that take waste (See note 5 below)		Total storage capacity				
		Annual throughput (tonnes each year)				

1 What activities are you applying for? continued

Notes

1. Quote the section number, part A1 or A2 or B, then paragraph and sub paragraph number as shown in EPR part 2 of schedule 1, schedule 13 and 14 for Local Authority regulated activities, or schedule 25/25B for Medium Combustion Plant or Specified Generators.
2. Use the description from the relevant schedule of the regulations. Include any extra detail that you think would help to accurately describe what you want to do.
3. By ‘capacity’, we mean:
 - the total incineration capacity (tonnes every hour) for waste incinerators
 - the total landfill capacity (cubic metres) for landfills
 - the total capacity (cubic metres) for the recovery of hazardous waste on land
 - the total treatment capacity (tonnes each day) for waste treatment operations
 - the total storage capacity (tonnes) for waste storage operations
 - the processing and production capacity for manufacturing operations, or
 - the thermal input capacity for combustion activities
4. Fill each listed activity as a separate line and give an accurate description of any other activities associated with your schedule 1 activities. You cannot have Directly Associated Activities (DAAs) as part of a mobile plant application.
5. By ‘total storage capacity’, we mean the maximum amount of waste, in tonnes, you store on the site at any one time.

Types of waste accepted

For those installations that take waste, for each line in Table 1a (including DAAs), fill in a separate document to list those wastes you will accept on to the site for that activity. Give the List of Wastes catalogue code and description (see **Waste classification technical guidance**).

If you need to exclude waste from your activity or facility by restricting the description, quantity, physical nature, hazardous properties, composition or characteristic of the waste, include these in the document. Send it to us with your application form.

Please provide the reference for each document. You can use Table 1b as a template.

If you want to accept any waste with a code ending in 99, you must provide more information and a full description of the waste in the document, (for example, detailing the source, nature and composition of the waste). Where you only want to receive specific wastes within a waste code you can provide further details of the waste you want to receive. Where a waste is dual coded you should use both codes for the waste.

1c Recovery of hazardous waste on land

1c.1 Are you applying for a waste recovery activity involving the permanent deposit of inorganic hazardous waste on land for construction or land reclamation?

No Now go to **section 2**

Yes Now go to **question 1c.2**

1c.2 Send us a copy of your waste recovery plan (WRP). This must comply with our guidance at **Waste recovery plans and deposit for recovery permits**.

Document reference

Now go to **question 1c.3**

1c.3 Have we pre-assessed your WRP?

Yes Now go to **question 1c.4**

No Now go to **section 2**

1c.4 Have there been any (non-administrative) changes to your WRP since the pre-application assessment?

No

Yes Provide a document that explains and justifies for the changes you have made

Document reference

There is a separate charge for the assessment of each new, varied or revised WRP. This must be submitted with the WRP at the pre-application stage of as part of the application.

For details of the charge see **Environmental permits: when and how you are charged**.

2 Point source emissions to air, water and land

Fill in Table 2 below with details of the point source emissions that result from the operating techniques at each of your installations.

Table 2 – Emissions (releases)

Installation name				
Point source emissions to air				
Emission point reference and location	Source	Parameter	Quantity	Unit
Point source emissions to water (other than sewers)				
Emission point reference and location	Source	Parameter	Quantity	Unit
Point source emissions to sewers, effluent treatment plants or other transfers off site

Emission point reference and location	Source	Parameter	Quantity	Unit

Fill in one table for each installation, continuing on a separate sheet if necessary.

Document reference for continuation sheet (if applicable)

2 Point source emissions to air, water and land, continued

You will also need to complete the **Part B6 form** if your installation includes a point source emission(s) to:

- water
- groundwater or
- sewer

3 Operating techniques

3a Technical standards

3a.1 Fill in Table 3a for each activity at the installation you refer to in Table 1a above and list the ‘Best Available Techniques’ you are planning to use.

There is no need to justify using the standards set out in:

- **BAT conclusions (BATC)**
- **BAT reference documents (BREFs)**
- **Environment Agency technical guidance (TGN)**

You must justify your decisions in a separate document if:

- there is no technical standard
- the technical guidance provides a choice of standards, or
- you plan to use another standard

This justification could include a reference to the Environmental Risk Assessment you have provided in Part B2 (General bespoke permit) of the application form.

For Part A(2) activities refer to **Integrated pollution prevention and control: sector guidance notes**.

For Part B and Schedule 14 activities see **Local Air Pollution Prevention and Control (LAPPC): process guidance notes**.

For each of the activities listed in Table 1a, the documents in Table 3a should summarise:

- the operations undertaken
- the measures you will use to control the emissions from your process, as identified in your risk assessment or the relevant BAT conclusions, BREF or technical guidance
- how you will meet other standards set out in the relevant BAT conclusions document, BREF or technical guidance

3 Operating techniques, continued

Description of the schedule 1 activity or directly associated activity	Best available technique (BATC, BREF or TGN reference) (see footnote below)	Document reference (if appropriate)

* Directive 2010/75/EU of the European Parliament and of the Council of 24 November 2010 on industrial emissions (integrated pollution prevention and control)

Fill in a separate table for each activity at the installation, continuing on a separate sheet if necessary.

Document reference for continuation sheet (if applicable)

3a.2 Describe the type of facility or operation you are applying for and provide site infrastructure plans, location plans and process flow diagrams or block diagrams to help describe the operations and processes undertaken. Give the document references you use for each plan, diagram and description.

3b General requirements

Fill in a separate Table 4 for each installation.

Table 4 – General requirements

Name of the installation	Avonmouth Data Centre
If the technical guidance or your risk assessment shows that emissions of substances not controlled by emission limits are an important issue, send us your plan for managing them	Document reference or references _____
Where the technical guidance or your risk assessment shows that odours are an important issue, send us your odour management plan	Document reference or references _____
If the technical guidance or your risk assessment shows that noise or vibration are important issues, send us your noise or vibration management plan (or both)	Document reference or references _____

3 Operating techniques, continued

For guidance on risk assessments for your environmental permit see [Risk assessments for your environmental permit](#).

3c Types and amounts of raw materials

Fill in Table 5 for all schedule 1 activities.

Table 5 – Types and amounts of raw materials

Name of the installation				
Capacity (See note 1 below)				
Schedule 1 activity	Description of raw material and composition	Maximum amount (tonnes) (See note 2 below)	Annual throughput (tonnes each year)	Description of the use of the raw material including any main hazards (include safety data sheets)

Notes

1. By ‘capacity’, we mean the total storage capacity (tonnes) or total treatment capacity (tonnes each day).
2. By ‘maximum amount’, we mean the maximum amount of raw materials on the site at any one time.

Fill in a separate table for each installation, continuing on a separate sheet if necessary.

Document reference for continuation sheet (if applicable)

Use a separate sheet if you have a long list of raw materials. Send it to us with your application form. Please also provide the reference of this extra sheet.

Document reference for continuation sheet

3d Information for specific sectors

For some of the sectors, we need more information to be able to set appropriate conditions in the permit. This is as well as the information you may provide in sections 5, 6 and 7. For those activities listed below, you must answer the questions in the relevant appendix.

3 Operating techniques, continued

4 Monitoring

4a Describe the measures you use for monitoring emissions by referring to each emission point in Table 2 above

You should also describe any environmental monitoring. Tell us:

- how often you use these measures
- the methods you use
- the procedures you follow to assess the measures

No

Yes

4b2 Are the sample ports large enough for monitoring equipment and positioned in accordance with section 6 and appendix A of BS EN 15259?

No

Yes

4b3 Is access adjacent to the ports large enough to provide sufficient working area, support and clearance for a sample team to work safely with their equipment throughout the duration of the test?

No

Yes

4b4 Are the sample location(s) at least 5 HD from the stack exit

No

Yes

4b5 Are the sample location(s) at least 2 HD upstream from any bend or obstruction?

No

Yes

4b6 Are the sample location(s) at least 5 HD downstream from any bend or obstruction?

No

Yes

4 Monitoring, continued

4b7 Does the sample plane have a constant cross sectional area?

No

Yes

4b8 If horizontal, is the duct square or rectangular (unless it is less than or equal to 0.35 m in diameter)

No

Yes

4b9 If you have answered 'No' to any of the questions 4b1 to 4b8 above, provide an assessment to how the standards in BS EN 15259 will be met.

6 Resource efficiency and climate change

If the site is a landfill or a recovery of hazardous waste on land activity, you only need to fill in this section if the application includes gas engines.

6a Describe the basic measures for improving how energy efficient your activities are

Document reference of the description

6b Provide a breakdown of any changes to the energy your activities use up and create

Document reference of the description

6c Have you entered into, or will you enter into, a climate change levy agreement?

No Describe the specific measures you use for improving your energy efficiency

Document reference of the description

6 Resource efficiency and climate change, continued

Yes Give the date you entered (or the date you expect to enter) into the agreement (DD/MM/YYYY)

In addition, provide documentation to prove you are taking part in the agreement.

Document reference of the proof

6d Explain and justify the raw and other materials, other substances and water that you will use

Document reference of the justification

6e Describe how you avoid producing waste in line with Council Directive 2008/98/EC on waste

If you produce waste, describe how you recover it. If it is technically and financially impossible to recover the waste, describe how you dispose of it while avoiding or reducing any effect it has on the environment.

“In-scope generator” is defined in [**Schedule 25C**](#) of the Environmental Permitting Regulations.

Appendix 2 – Specific questions for the chemical sector

1 Provide a technical description of your activities

The description should be enough to allow us to understand:

- the process
- the main plant and equipment used for each process
- all reactions, including significant side reactions (that is, the chemistry of the process)
- the material mass flows (including by products and side streams) and the temperatures and pressures in major vessels
- all emission control systems (both hardware and management systems), for situations which could involve releasing a significant amount of emissions – particularly the main reactions and how they are controlled
- a comparison of the indicative BATs and benchmark emission levels standards:

1a Do you run incineration plants as defined by Chapter IV of the Industrial Emissions Directive (IED)?

- No You do not need to answer any other questions in this appendix
- Yes IED applies

1b Are you subject to IED as

- An incinerator?
- A co-incinerator?

2 Do any of the installations contain more than one incineration line?

- No Now go to **question 4 of this appendix**
- Yes

3 How many incineration lines are there within each installation?

Fill in a separate table for each installation.

Installation reference		
Number of incineration lines within the installation		
Reference identifiers for each line		

You must provide the information we ask for in questions 4, 5 and 6 below in separate documents. The information must at least include all the details set out in section 2 (‘Key Issues’) of **Incineration of waste (EPR5.01): additional guidance** (under the sub heading ‘European legislation and your application for an EP Permit’).

You must answer questions 7 to 13 on the form below.

4 Describe how the plant is designed, equipped and will be run to make sure it meets the requirements of IED, taking into account the categories of waste which will be incinerated

Question 3 identifier, if necessary

7 Do you want to take advantage of the Article 45 (1)(f) allowance (see below) if the particulates, CO or TOC continuous emission monitors (CEM) fail?

No

Yes This allows ‘abnormal operation’ of the incineration plant under certain circumstances when the CEM for releases to air have failed. Annex VI, Part 3(2) sets maximum half hourly average release levels for particulates (150 mg/m³), CO (normal ELV) and TOC (normal ELV) during abnormal operation.

Describe the other system you use to show you keep to the requirements of Article 13(4) (for example, using another CEM, providing a portable CEM to insert if the main CEM fails, and so on).

8 Do you want to replace continuous HF emission monitoring with periodic hydrogen fluoride (HF) emission monitoring by relying on continuous hydrogen chloride (HCl) monitoring as allowed by IED Annex VI, Part 6 (2.3)?

Under this you do not have to continuously monitor emissions for hydrogen fluoride if you control hydrogen chloride and keep it to a level below the HCl ELVs.

No

Yes Give your reasons for doing this

Appendix 3 – Specific questions for the waste incineration sector, continued

9 Do you want to replace continuous water vapour monitoring with pre-analysis drying of exhaust gas samples, as allowed by IED Annex VI, Part 6 (2.4)?

Under this you do not have to continuously monitor the amount of water vapour in the air released if the sampled exhaust gas is dried before the emissions are analysed.

No

Yes Give your reasons for doing this

10 Do you want to replace continuous hydrogen chloride (HCl) emission monitoring with periodic HCl emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph?

Under this you do not have to continuously monitor emissions for hydrogen chloride if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed.

No

Yes Give your reasons for doing this

Appendix 3 – Specific questions for the waste incineration sector, continued

11 Do you want to replace continuous HF emission monitoring with periodic HF emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph?

Under this you do not have to continuously monitor emissions for hydrogen fluoride if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed.

No

Yes Give your reasons for doing this

12 Do you want to replace continuous SO₂ emission monitoring with periodic sulphur dioxide (SO₂) emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph?

Under this you do not have to continuously monitor emissions for sulphur dioxide if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed.

No

Yes Give your reasons for doing this

Appendix 3 – Specific questions for the waste incineration sector, continued

13 If your plant uses fluidised bed technology, do you want to apply for a derogation of the CO₂ WID ELV to a maximum of 100 mg/m³ as an hourly average, as allowed by IED Annex VI, Part 3?

No

Does not apply

Yes Give your reasons for doing this

14 Have you carried out a cost–benefit assessment (CBA) of opportunities for cogeneration (combined heat and power) or district heating under Article 14 of the Energy Efficiency Directive?

No Provide supporting evidence of why a CBA is not required (for example, an agreement from us)

Document reference of this evidence

Yes Submit a copy of your CBA

Document reference of the CBA

15 Does your installation need to be combined heat and power-ready (CHP-ready)?

No Provide supporting evidence of why a CHP-ready assessment is not required (for example, an agreement from us)

Document reference of this evidence

Yes Provide a copy of your CHP-ready assessment

Document reference of the CHP-ready assessment

Appendix 3 – Specific questions for the waste incineration sector, continued

16 Information to be provided by the operator to the competent authority for each Medium Combustion Plant as identified in Annex I of Medium Combustion Plant Directive (EU/2015/2193)

MCP specific identifier*	
12-digit grid reference or latitude/longitude	
Rated thermal input (MW) of the MCP	
Type of MCP (diesel engine, gas turbine, other engine or other MCP)	
Type of fuels used: gas oil (diesel), natural gas, gaseous fuels other than natural gas, landfill gas	
Date when the new MCP was first put into operation	
Sector of activity of the MCP or the facility in which it is applied (NACE code)	
Expected number of annual operating hours of the MCP and average load in use	
Where the option of exemption under Article 6(8) is used the operator (as identified on Form A) should sign a declaration here that the MCP will not be operated more than the number of hours referred to in this paragraph	

* identifier – the MCP must be traceable via a serial number or other unique identifier, name plate, manufacturer and or model

NACE code means Nomenclature of Economic Activities and is the European statistical classification of economic activities. NACE codes can be found by following the links at <https://ec.europa.eu/eurostat/web/nace>.

There are several online resources available that can help you find the grid reference. For example, go to the **Ordnance Survey website**, then locate and right click on the relevant point.

Appendix 4 – Specific questions for the landfill sector and recovery of hazardous waste on land activities

1 For the landfill sector, provide your Environmental Setting and Installation Design (ESID) report and any other risk assessments to control emissions.

For recovery of hazardous waste on land activities, provide your Environmental Setting and Site Design (ESSD) report and any other risk assessments to control emissions

Document reference

2 For recovery of hazardous waste on land activities, provide your Waste Acceptance Procedures (including Waste Acceptance Criteria)

Document reference

Refer to our guidance at **Waste acceptance procedures for deposit for recovery**

3 Provide your hydrogeological risk assessment (HRA) for the site

Document reference

4 Provide your outline engineering plan for the site

Document reference

5 Provide your stability risk assessment (SRA) for the site

Document reference

6 Provide your landfill gas risk assessment (LFGRA) for the site

Document reference

We have developed guidance on these assessments and their reports which can be found at **Environmental permitting: landfill sector technical guidance.**

Appendix 4 – Specific questions for the landfill sector and recovery of hazardous waste on land activities, continued

7 For recovery of hazardous waste on land activities, have you completed a monitoring plan for the site?

No Refer to the section of your ESSD that explains why this is unnecessary for your site

Document reference of this evidence

Yes

Document reference

8 Have you completed a proposed plan for closing the site and your procedures for looking after the site once it has closed?

No If you have answered 'no' for recovery of hazardous waste on land activities, refer to the section of your ESSD that explains why this is unnecessary for your site

Document reference of this evidence

Yes For landfill you must provide a closure and aftercare plan

Application for an environmental permit

Part F1 – Charges and declarations

When to complete the Part F1 form

Complete this form for all applications for:

- installations (except exclusions 1 and 2)
- waste operations (except exclusion 1)
- mining waste operations (except exclusion 1)
- medium combustion plant (except exclusions 1 and 3)
- specified generators (except exclusion 1 and 4)
- water discharges to surface water (except exclusions 1, 5, 6 and 7)
- groundwater activities (except exclusions 1, 6, 8, 9 and 10)

Exclusions – when you do not need to complete this form

You do not need to complete this form if your application is for:

1. an administrative variation. Use the **Part C0.5 form** instead.
2. a permit or non-administrative variation for intensive farming. Use the **Part B3.5 form** or **Part C3.5 form** as appropriate.
3. a medium combustion plant standard rule permit. See **MCP guidance**
4. a specified generator standard rule permit. See **SG guidance**
5. a permit to discharge up to 20 cubic metres a day of treated domestic sewage to surface water. Use the **Part B6.5 form**.
6. a water discharge or groundwater activity transfer notification. Use the **Part A** and **Part D1** forms. This exclusion does not apply to partial transfer of activities. You'll need to complete this Part F1 form as part of the permit variation to reflect the partial transfer.
7. a water discharge surrender notification. Use the **Part E1 form**. This exclusion does not apply to partial surrenders that need a permit variation. If a variation is required, you'll need to complete this Part F1 form as part of your variation application.
8. a permit to discharge up to 15 cubic metres a day of treated domestic sewage to ground. Use the **Part B6.5 form**.
9. a permit for an existing discharge up to 2 cubic metres a day of treated domestic sewage to ground in a source protection zone 1. Use the **Part B6.6 form**.
10. a groundwater activity surrender notification. Use the **Part E1 form**. You will still need to complete this Part F1 form for the following:
 - surrender applications for standalone groundwater activities at onshore oil and gas facilities
 - partial surrender notifications that need a permit variation. If a variation is required, you'll need to complete this Part F1 form as part of your variation application.

Completing this form

Visit our website to check this is the latest version of the form. See **[Application for an environmental permit \(charges and declarations\): part F1](#)**

Please read through this form before completing it.

You will need to refer to our **[charging scheme and charge tables](#)** and **[charging guidance](#)** to complete the form.

You can also use our **[pre-application advice service](#)** to help you work out your charges.

We expect it will take less than 3 hours to complete the form.

The form can be:

- saved to your computer or device and then filled in. We recommend using Adobe Acrobat software to avoid any compatibility issues.
- printed off and filled in by hand. Please write clearly in the answer spaces. If you need to use the links in this form, you can access the electronic version here: **<https://www.gov.uk/government/publications/application-for-an-environmental-permit-part-f1-opra-charges-declarations>**

Other forms you will need to complete

You'll also need to complete other parts of the application form in addition to this Part F1 form. This depends on your facility type and what you are applying for:

- for a new bespoke permit visit **[New bespoke environmental permit: application forms](#)**
- for a new standard rules permit visit **[Application for an environmental permit: part B1 standard facilities permit](#)**
- If you already have a permit visit **[Change, transfer or cancel your environmental permit](#)**

1 When you need to pay an application charge

1.1 What are you applying for?

Complete Table 1 with your facility type, application type and number of applications.

Table 1

Facility type (see note 1)	Application type (see note 2)	Number of applications

Table 1 notes

1. Facility type

Choose the facility type from the following list:

- groundwater activity
- installation
- medium combustion plant or specified generator
- mining waste
- waste operation
- water discharge

Use a separate row for each facility type and each application type.

2. Application type

Choose the application type from the following list:

New permit:

- new bespoke permit
- new standard rules permit

Variation:

- minor variation
- normal variation
- substantial variation

Surrender:

- full surrender
- low risk surrender
- partial surrender
- partial surrender with variation

1 When you need to pay an application charge, continued

Transfer:

- full transfer
- partial transfer with variation

Use a separate row for each facility type and each application type.

1.2 Are you applying for any of the following?

Tick any that apply

- Part B installation surrender (except a partial surrender requiring a permit variation)
- waste mobile plant surrender
- authorised ship recycling facility (applications and renewals)
- bespoke groundwater mobile plant (all application types)
- staged application

If **none** of the above apply, go to **section 2**

If you have ticked **any** of the above, go to **section 4**

The following applications do not attract a charge:

- Part B installation surrender (except a partial surrender requiring a permit variation)
- waste mobile plant surrender

The following charges are payable on demand as time and materials charges:

- authorised ship recycling facility (applications and renewals)
- bespoke groundwater mobile plant (all application types)
- staged applications

For all other applications, charge payments must be made at the time of application.

2 Working out your application charge

For all applications, enter your fixed charges in Table 2. These charges are detailed in our charging scheme tables.

Complete Table 3 if additional charges apply. For example, where additional chargeable assessments are needed.

Your total application charge consists of your fixed charges, plus any additional charges. Complete Table 4 with these figures.

Do not add VAT as most application charges are outside the scope of VAT. The exception is pre-application charges where VAT is applicable. Your pre-application invoice will show if VAT has been included in the charge.

Application charges are set out in **Environmental permits and abstraction licences: tables of charges**.

Guidance on charges is available at **Environmental permits: when and how you are charged**.

You can also use our pre-application advice service to help you work out your charges. Visit **Get advice before you apply for an environmental permit**.

2 Working out your application charge, continued

2.1 Fixed charges

Complete Table 2 with all fixed charges relevant to your application.

Table 2

Ref (from charging table)	Activity description (from charging table)	Additional description (where applicable – see note 1)	Application type (from charging table)	Fixed charge amount (see note 2)
Total fixed charges				

Continue on separate sheet as necessary

Document reference of continuation sheet (if any):

2 Working out your application charge, continued

Table 2 notes

1. Additional description

For multiple activities on the same permit:

- use a separate row for each chargeable activity
- add a description to help identify the correct charge. For example, if the same activity is being carried out multiple times or is a secondary activity.

Bulk permit transfer with the same charging table reference can be entered on the same row.

2. Fixed charge amount

Enter the fixed charge amount from the relevant **charging table**.

Show any reductions for:

- **batch permit transfers** (also see example 1 below)
- **multi-activity new permit applications** (also see example 2 below)
- **standalone directly associated activities**

New standard rules may not be shown in the current charging scheme tables. Whilst the scheme is being updated, you can find the charges by visiting **Standard rules: environmental permitting**. Then follow the link to the relevant rule set. The charges will be listed on the individual rule set page.

Alternatively, you can contact us for pre-application advice by visiting **Get advice before you apply for an environmental permit**.

2 Working out your application charge, continued

Example 1 – batch transfer of 11 permits

Ref (from charging table)	Activity description (from charging table)	Additional description (where applicable)	Application type (from charging table)	Fixed charge amount
1.16.9	Household waste amenity site taking hazardous waste; includes assessment of fire prevention plan and odour management plan		Transfer application	£2,529 (100% of largest transfer charge)
1.16.9	Household waste amenity site taking hazardous waste; includes assessment of fire prevention plan and odour management plan		Transfer application	£5,058 (10 applications after 80% reduction)
Total fixed charges				£7,587

Example 2 – multi-activity new permit application

Ref (from charging table)	Activity description (from charging table)	Additional description (where applicable)	Application type (from charging table)	Fixed charge amount
1.7.1	Section 6.8: food and drink production	First production line	Permit application	£13,984 (100% of largest activity charge)
1.7.1	Section 6.8: food and drink production	Second production line (same activity carried out multiple times)	Permit application (part of above application)	£1,398 (after 90% reduction)
1.16.2.2	Section 5.4 (a)(ii): non-hazardous waste installation – physico-chemical treatment for disposal	Effluent treatment plant discharging to sewer (secondary activity)	Permit application (part of above application)	£1,344 (after 90% reduction)
Total fixed charges				£16,726

Note: example charges and calculations were correct at time of form publication.

2 Working out your application charge, continued

Now go to [question 2.2](#)

2.2 Additional application charges

Complete Table 3 with any additional application charges

Table 3

Charging scheme reference (table 1.19 or paragraph reference)	Additional charge type	Tick all applicable	Charge amount
1.19.1	Waste recovery plan or variation or revision of a waste recovery plan assessment		
1.19.2	Habitats assessment (except where the application activity is a water discharge or groundwater activity)		
1.19.3	Fire prevention plan assessment		
1.19.4	Pests management plan assessment		
1.19.5	Emissions management plan assessment		
1.19.6	Odour management plan assessment		
1.19.7	Noise and vibration management plan assessment		
1.19.10	Habitats assessment for discharges to water and groundwater activities		
1.19.11	Specific Substances Assessment for a water discharge activity to surface water		
1.19.12	Specific Substances Assessment for a groundwater activity		
1.19.13	Decarbonisation readiness assessment for an in-scope generator which is a specified installation		
1.19.14	Decarbonisation readiness assessment for an in-scope generator other than a specified installation		
Paragraph 10(a)	Advertising charge		
Paragraph 10(c)	Enhanced pre-application charges (invoiced but not yet paid). Include the amount and invoice number in the 'Charge amount' column		
Total additional charges			

2 Working out your application charge, continued

Table 3 notes

Complete Table 3 if additional charges apply to your application.

Chargeable plans and assessments

Tick all chargeable plans and assessments submitted in support of your application. Enter the charge amount for each. Charges can be found in the relevant charging table at [Environmental permits and abstraction licences: tables of charges](#)

Some charges for assessing your plans and documents are already included in the fixed charge. Where this is applicable, it will be shown in the charge table description. For example, the description may say ‘includes assessment of fire prevention plan’.

For further guidance visit [Charges for plans and assessments](#) for further information. There is no need to complete table 3 for assessments already included in the fixed charge.

Advertising charge

Tick the advertising charge box if we’ve told you we will be advertising your application. For further information see [Advertising charge](#).

Enhanced pre-application advice charge

You must pay any outstanding pre-application charge invoices with your application. We will return any applications with unpaid invoices.

Now go to [question 2.3](#)

2.3 Total amount payable

Complete Table 4 with the total application charges payable.

Table 4

Charge	Charge amount
Total fixed charges (from Table 2)	
Total additional charges (from Table 3)	
Total amount payable	

Now go to [section 3](#)

3 Payment

Only complete this section if your application needs to be accompanied by a payment. Refer to [question 1.2](#).

Please note we are unable to:

- send you an invoice for application charges, (other than pre-application charges)
- accept payments in instalments

3 Payment, continued

3.1 Payment method

Tick one option to show your payment method. Then follow the link to the relevant payment section and follow the steps shown.

Online card payment using GOV.UK Pay – go to [Paying by GOV.UK Pay](#)

Electronic bank transfer (for example, by BACS) – go to [Paying by electronic bank transfer](#)

Credit or debit card payment over the phone – go to [Paying by phone](#)

Cheque – go to [Paying by cheque](#)

A. Paying by GOV.UK Pay

GOV.UK Pay is a digital payment system where you can pay using a Visa, MasterCard, Maestro card and some digital wallets.

Follow steps A1 to A3 to pay using GOV.UK Pay.

A1 Create your payment reference number

You'll need to include a unique reference number when making your payment. This reference number means we can match the payment to your application. It may cause delays if you do not include a reference number.

1. Start your reference number with one of the following codes, based on your facility type:

- PSCAPPWASTE – for waste operations and mining waste operations
- PSCAPPINST – for installations and medium combustion plant or specified generators
- PSCAPPWQ – for water discharge and groundwater activities

2. Follow this with the first five letters of the applicant's name

3. Finish with your chosen unique identifying number

Example

- application is for a waste operation, so the code is: PSCAPPWASTE
- applicant is Anyfirm Limited, so the first five letters are: ANYFI
- applicant's chosen identifier is: 01

The payment reference number is therefore: PSCAPPWASTEANYFI01

Make a note of this reference number. You'll need to provide it in step A3 below.

A2 Go to GOV.UK Pay payment page

Click on the relevant link below according to your facility type. This will take you to the relevant page to make your payment.

- Link for: [waste operations and mining waste operations](#)
- Link for: [installations and medium combustion plant/specified generators](#)
- Link for: [water discharges and groundwater activities](#)

3 Payment, continued

A3 Complete the payment details below

Payment reference number

Payment amount

Payment date

Now go to **section 4**

B. Paying by electronic bank transfer

Follow steps B1 to B3 to pay by electronic bank transfer, such as BACS.

B1 Create your payment reference number

You'll need to include a unique reference number when making your payment. This reference number means we can match the payment to your application. It may cause delays if you do not include a reference number.

1. Start your reference number with one of the following codes, based on your facility type:

- PSCAPPWASTE – for waste operations and mining waste operations
- PSCAPPINST – for installations and medium combustion plant or specified generators
- PSCAPPWQ – for water discharge and groundwater activities

2. Follow this with the first five letters of the applicant's name

3. Finish with your chosen unique identifying number

Example

- application is for a waste operation, so the code is: PSCAPPWASTE
- applicant is Anyfirm Limited, so the first five letters are: ANYFI
- applicant's chosen identifier is: 01

The payment reference number is therefore: PSCAPPWASTEANYFI01

Make a note of this reference number. You'll need to provide it in step B3 below.

B2 Log onto your banking system

Log onto your banking system to transfer the funds.

You'll need to use the following information to make your payment:

Payee name:	Environment Agency
Sort code:	60-70-80
Account number:	10014411
Account name:	EA RECEIPTS

If you are making your payment from outside the United Kingdom, it must be in sterling. Our IBAN number is GB23NWBK60708010014411 and our SWIFTBIC number is NWBKGB2L.

3 Payment, continued

B3 Complete the payment details below

Name of account holder

Payment reference number

Payment amount

Payment date

Also email your payment details and reference number to ea_fsc_ar@gov.sscl.com.

Now go to **section 4**

C. Paying by phone

If you want to pay by phone, add the name and phone number of the person making the payment.

Name

Phone number

We'll call the above person to arrange payment. We can accept payments by Visa, MasterCard or Maestro card only.

Now go to **section 4**

D. Paying by cheque

Make your cheque payable to 'Environment Agency' and cross it with 'A/C Payee' (if not already printed on the cheque).

Write the following on the back of your cheque:

- applicant's name
- application reference number (if known)
- application site address and postcode (where applicable)

Enter the cheque number below

3 Payment, continued

If you're submitting a paper application, include your cheque with the application.

If you're emailing your application, include a covering note with your cheque. Post your cheque to our Integrated Permitting Services at the address shown in **section 11**.

Please note, we're unable to accept post-dated cheques.

It is usually quicker and easier to complete your payment online or by phone.

Now go to **section 4**

4 Privacy notice

See how we use your personal information in services to support environmental permitting by visiting **Environmental permits privacy notice**.

Now go to **section 5**

5 Commercial and industrial confidentiality

We're required to put a copy of your application on a public register. We may exclude information we consider to be confidential from the public register. 'Confidential information' in this context means it is commercially or industrially confidential.

You can ask for information in your application to be treated as confidential. You should request confidentiality when you submit your application.

To be considered fully, your request must:

- clearly identify which information should be considered confidential
- include a clear justification for each item you want kept from the public register
- include evidence that the confidentiality is provided by law to protect a legitimate economic interest

Confidential information should be easy to separate from the rest of your application. For example, you could submit two versions of the same document. One version that contains the confidential information and is marked accordingly. The other document is the same, but with the confidential information hidden or removed.

Information identified as confidential won't be put on the public register while we review your request. We'll let you know the outcome once our decision has been made.

You can find further information on commercial and industrial confidentiality by visiting **Environmental permitting guidance: Core guidance**.

Only tick the box below if you do want to claim commercial or industrial confidentiality.

I wish the information I have identified to be treated as confidential and excluded from the public register.

Now go to **section 6**

6 National security

We maintain a public register of permitting applications. We can be directed to exclude information in the interests of national security. If your application contains such information, you may notify the Secretary of State. They will decide whether it should be excluded from the register.

You must tell us if you have given notice to the Secretary of State. You must still include the information in your application. It will be excluded from the register unless the Secretary of State decides it should be included.

You cannot apply for national security using this application form.

You can find further information on national security by visiting [Environmental permitting guidance: Core guidance](#).

Now go to [section 7](#)

7 Ecological survey information

7.1 Have you provided ecological survey data as part of your application?

Yes – go to [question 7.2](#)

No – go to [section 8](#)

7.2 Use of ecological survey data

We may wish to use any ecological survey data you have supplied for other purposes as detailed below.

We assume that we are permitted to use the information you supply to us, in connection with our statutory and regulatory responsibilities. In particular (although there may be other uses), we may:

- incorporate the information into our datasets and mapping. These are used for a variety of purposes
- provide information to other applicants and organisations where this enables us to protect wildlife as we are directed to do in the Environment Act
- respond to requests for information under the Freedom of Information Act and the associated Environmental Information Regulations 2004 and agree limited usage rights in accordance with our Standard Notices that we use when supplying our information
- license datasets and mapping derived from or containing information

If you have any queries, please contact us using the details in [section 10](#) of this form

Tick this box if you do **not** want us to use information from any ecological survey that you have supplied with your application

8 Declaration

Who should complete the declaration

The person needing to complete the declaration depends on the type of legal entity applying. This is set out below:

Individual

One of the following must sign the declaration:

- the individual

8 Declaration, continued

- someone with written authorisation from the individual

Multiple individuals (see below for unincorporated organisations)

One of the following must sign the declaration:

- all individuals named, or to be named on the permit
- someone with written authorisation from all individuals named, or to be named on the permit

Unincorporated trusts, charities and societies

One of the following must sign the declaration:

- trustee
- chairperson
- treasurer
- secretary
- person with a similar position
- someone with written authorisation from any of the above

Registered company

One of the following must sign the declaration:

- director registered at Companies House
- company secretary registered at Companies House
- any similar company officer registered at Companies House
- someone with written authorisation from any of the above

Limited liability partnership

One of the following must sign the declaration:

- partner registered at Companies House
- partnership secretary registered at Companies House
- someone with written authorisation from any of the above

Other incorporated body

One of the following must sign the declaration:

- chairperson
- treasurer
- secretary
- person with a similar position
- someone with written authorisation from any of the above

Public body or ministerial government department

A person with delegated authority under the body's non-financial scheme of delegation must sign the declaration.

Corporate bodies subject to insolvency procedures

The official Receiver or appointed insolvency practitioner must sign the declaration.

8 Declaration, continued

Written authorisations

If you are the applicant and want someone to complete the below declaration on your behalf, you must give them written authorisation to do so.

Your authorisation must confirm the person has authority to complete the declaration for you. Include a copy of the authorisation with your application, unless we already hold a valid one on file.

Agents or consultants cannot complete the declaration without written authorisation from the applicant.

8.1 Declaration by current permit holder or applicant applying for a new permit

The declaration and details below must be completed by the:

- current permit holder for variation, transfer and surrender applications
- applicant applying for a new permit

Declaration

Note: It is an offence under the Environmental Permitting (England and Wales) Regulations 2016 to knowingly or recklessly make a statement that is false or misleading for the purpose of obtaining an environmental permit, variation, transfer or surrender (for yourself or anyone else)

For further information visit [Environmental Permitting Regulations \(EPR\) offences](#)

I declare that the information in this application is true to the best of my knowledge and belief.

I understand that this application may be refused, or approval withdrawn if I give false or misleading information.

Tick this box to confirm that you understand and agree with the declaration above.

In addition, if you are applying for a standard rules permit, tick the box below if you agree with the statement.

I confirm that my standard rules facility will fully meet the rules that I have applied for.

Now complete your details below. You do not need to provide a signature as well.

Person completing declaration

Last name

on behalf of (if relevant; for example, a company or organisation and so on)

Position (if relevant)

'Position' could, for example, be a director, secretary, trustee, or partner in a partnership

8 Declaration, continued

Date of declaration (DD/MM/YYYY)

Use **Appendix 1** if more than one person needs to complete the declaration for the same applicant. For example, where multiple individuals are to be named on the permit.

8.2 Are you applying for a permit transfer?

Yes – now go to **question 8.3**

No – now go to **section 9**

8.3 Declaration by proposed new permit holder

The proposed new permit holder must complete the declaration and their details below.

Declaration for permit transfer applications

Permit transfer applications are joint applications.

The existing permit holder must complete the declaration and details in **question 8.1**.

The proposed new permit holder must complete the declaration and details below.

Note: there may be situations when you're unable to trace the permit holder or a joint holder. You may still be able to transfer the permit without their declaration. Contact us to discuss this. You'll need to supply evidence in your application to confirm you're unable to trace them.

It is an offence under the Environmental Permitting (England and Wales) Regulations 2016 to knowingly or recklessly make a statement that is false or misleading for the purpose of obtaining an environmental permit, variation, transfer or surrender (for yourself or anyone else)
