# Application for an environmental permit Part B2 – General – new bespoke permit

Fill in this part of the form together with parts A and F1 if you are applying for a new bespoke permit. You also need to fill in part B3, B4, B5, B6, or B7 (this depends on what activities you are applying for). Please check that this is the latest version of the form available from our website.

You can apply online for waste bespoke environmental permits.

Apply online for an environmental permit.

Please read through this form and the guidance notes that came with it.

The form can be:

saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.

printed off and filled in by hand. Please write clearly in the answer spaces

It will take less than two hours to fill in this part of the application form.

#### Contents

- About the permit
- About the site 2

Provide a cost profile and	expenditure plan of your estimated costs	s throughout the aftercare period of your site.		
Document plan reference				
Now go to question 3d				
3d Management sys	items (all)			

You must have an effective, written management system in place that identifies and reduces the risk of pollution. You may show this by using a certified scheme or your own system.

Your permit requires you (as the operator) to ensure that you manage and operate your activities in accordance with a written management system.

You need to be able to explain what happens at each site and which parts of the overall management system apply. For example at some sites you may need to show you are carrying out additional measures to prevent pollution because they are nearer to sensitive locations than others.

You can find guidance on management systems on our website at www.gov.uk/government/organisations/environment-agency

EPB2 Version 16, August 2020 page 6 of 11

### 5 Supporting information, continued

### 5c Provide a non-technical summary of your application

See the guidance notes on part B2.	
Document reference of the summary	

### 5d Are you applying for an activity that includes the storage of combustible wastes?

<b>5</b> u	, •	you applying for an activity that metados the storage of compastible mastes.		
This a	This applies to all activities excluding standalone water and groundwater discharges.			
No				
Yes 🗌		Provide a fire prevention plan (see the guidance notes on part B2). You need to highlight any changes you have made since your pre-application discussions.		
		Document reference of the plan		

#### 6 Environmental risk assessment

Provide an assessment of the risks each of your proposed regulated facilities poses to the environment. The risk assessment must follow the methodology set out in 'Risk assessments for your environmental permit' at www.gov.uk/government/collections/technical-guidance-for-regulated-industry-sectors-environmental-permitting or an equivalent method.

Document reference for the assessments

### For Waste and Installation Permits only

All bespoke waste and installations permit applications must carry out a climate change risk assessment if the planned duration of the operation is more than 5 years. This will normally be reviewed and discussed with you as part of our compliance activities. However, we may require you to submit your climate change risk assessment as part of your application depending on your risk screening score. We will consider the information contained within your climate change risk assessment when we grant your permit. Conditions may be applied to some permits to manage climate risks.

#### 6b Climate change risk screening

See the guidance to Part B2.

Mark your score in each category in the table below. Add each individual score to give a total.

CA	TEGORY	SCREENING QUESTIONS	SCORE	YOUR SCORE
1	TIMESCALES	How long will a permit be required for this site/activity?		
		5 years or less of operation. No need to fill in the rest of the screening. You do not need to fill in a risk assessment. Please go straight to question 7.	0	
		Less than 20 years of operation	1	
		Until between 2040 and 2060 (between 20 and 40 years from now)	3	
		Until 2060 or beyond (more than 40 years from now)	5	
2	FLOODING	What is your site's risk of flooding from rivers or the sea?		
		Not in a flood-risk zone	0	
		Very low or Low	1	
		Medium	2	
		High	5	
3	WATER USE	If you use water for your site operations or fire prevention, what is the source of your water?		
		Water not required	0	
		Mains water	1	
		Surface water or groundwater abstraction	5	
	TOTAL SCREENING SCORE			

If your total screening score is 5 or more, complete the climate change risk assessment and submit it with your permit application.

If you expect to operate for 5 years or less, you do not need to submit a risk assessment with your application, regardless of your screening score.

You must enter your score for every category in the table above. If you expect to operate for 5 years or less you may enter 'Not Applicable' for categories 2 and 3.
