Hi Both,

Just to let you know I have found and allocated your payment of £23,702 from 20/02/2026.

When I returned the previous application, I had incorrectly applied an 100% reduction to your second installation activity instead of 90%, which is why there is £1,344.30 outstanding for this application.

My return letter stated

1.16.2.2	Section 5.4 (a)(ii) non-hazardous waste installation physico chemical for disposal (WwTW)	13,443	100%	0
----------	---	--------	------	---

The correct reduction at 90% is as below

1.16.2.2: Section 5.4 (a)(ii) non-hazardous waste installation physico-chemical treatment for disposal	1,344.30	90%
--	----------	-----

I look forward to hearing from you regarding confirmation of general binding rules applying and with the dropbox link to relevant application documents and model files.

Many thanks

Naomi
