**Our ref: EPR/JB3136RD/V004**

**Date: 01/03/2023**

Dear Katie Hampton

**We need more information about your application and underpayment of application charge**

**Application reference: EPR/JB3136RD/V004**  
**Operator: Viridor South London Limited**  
**Facility: Beddington Waste Transfer Station**

Thank you for your application received on 21/12/2021. The following is to confirm our conversation of 01/03/2023.

Unfortunately the application payment you sent is incorrect. The correct application charge is £12,167, which is the charge for a substantial variation of the Section 5.6 activity that you have applied to add to your permit. You have already paid £9,436 relating to this permit variation. This amount will be deducted from the remaining balance, meaning that the final balance left to pay is **£2,731.**

I need to ask you for some missing information before I can do any more work on your application. Please provide us with the following information:

1. A copy of the WAMITAB qualification certificate, or continuing competence certificate for the Technically Competent Manager (TCM) that will be present at the facility. This needs to cover the new hazardous waste and clinical waste activities that you have applied to undertake.
2. A copy of the emissions to air risk assessment (H1 tool) that you previously supplied. This is required as the version supplied previously has been corrupted.
3. A BAT assessment against the relevant sections of SGN5.06 for the new activities that you have applied to undertake. SGN5.06 can be found here:  
[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\\_data/file/298118/LIT\\_8199\\_dd704c.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/298118/LIT_8199_dd704c.pdf)
4. Details on the secondary containment for the liquid wastes you have applied to add to the list of wastes that the waste transfer station can accept. This needs to include; volumes of the primary containment, volumes of the secondary containment, types of chemicals being stored, construction materials and a layout plan of where the different types of waste will be stored within the waste transfer station.

Please send the information, quoting the above application reference, to:

Email address: [psc@environment-agency.gov.uk](mailto:psc@environment-agency.gov.uk) and cc in myself

██

Postal address:  
Permitting and Support Centre  
Quadrant 2  
99 Parkway Avenue  
Parkway Business Park  
Sheffield  
S9 4WF

Please send the information and payment within 10 working days of this letter. Details of how to pay are given in Part F of the application form.

If we do not receive the information and payment within 10 working days we will return your application.

If we do receive the requested information and payment within 10 working days, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for.

We'll let you know by letter whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at:  
<https://www.gov.uk/government/publications/environmental-permitting-charging-scheme-2019>

If you have any questions please phone me on ██████████ or email

██

Yours sincerely
