

## About this consultation

### CR8 2AL, DAY GROUP LIMITED: environmental permit consultation

**The aim of this consultation is to ask whether you have any comments relevant to the permit application**

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for DAY GROUP LIMITED. Please use the reference number below when making comments on this application.

- Permit Number: EPR/CB3630RF/V002
- Regulated facility type: Operator application to vary an existing Standard Rules permit to a Bespoke Permit.  
No changes to the current operation activity, tonnage, or waste types are required. As the Standard rules specification has been reviewed the site within a Source protection zone 1 category, can no longer operate within the standard rules, so the Bespoke permit is required to enable continuation of this facility. The site has a sealed drainage system and operates on an impermeable surface, deemed as a low-risk activity with the inert waste nature of permit.
- Regulated facility location: Day Aggregates Purley Depot, Approach Road, Purley, CR8 2AL

#### Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

#### What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

#### How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact [PSCpublicresponse@environment-agency.gov.uk](mailto:PSCpublicresponse@environment-agency.gov.uk)
