Dear Sirs,

Water Industry Act 1991

Consent for Discharge of CVD cooling towers to the public foul water sewer

This letter defines the conditions under which Severn Trent Water Limited gives its consent to the discharge of trade effluent from Meggitt Aircraft Braking Systems, Holbrook Lane, Coventry, Warwickshire, CV6 4AA to the public foul water sewer.

Definitions

In the conditions below the following definitions are to be applied:

“the Company” means Meggitt Aerospace Limited.

“the Sewerage Undertaker” means Severn Trent Water Limited, whose offices are situated at 2297 Coventry Road, Birmingham B26 3PU and any of its staff or employees and any other duly authorised person engaged in sewerage functions.

“the Site” means the site occupied by the Company at Holbrook Lane, Coventry, Warwickshire, CV6 4AA.

“the Sewer” means the foul water sewer serving the Site.

“the Effluent” means the waste water discharged to the foul sewer serving the Site.

A member of the Severn Trent Group

CONTINUATION

Conditions

1. The Sewerage Undertaker hereby gives its consent, subject as appears below, to the discharge of the Effluent to the Sewer.
2. The Effluent shall consist solely of waste water derived from CVD cooling towers.
3. The Effluent shall not contain any of the substances or properties listed below in amounts or proportions other than those which comply with the limits stated and shall not contain any substances or properties not listed except with prior written permission of the Sewerage Undertaker.
 - a. The temperature of the Effluent shall not exceed 43° Centigrade (110° Fahrenheit).
 - b. The Effluent shall be free from physically separable, dispersed or emulsified oil and soluble oils, and from materials immiscible with water.
 - c. There shall be eliminated from the Effluent, before it is discharged into the Sewer, any matter which either alone or in combination with any matter with which it is likely to come into contact while it is passing through any sewers is likely to injure or obstruct any such sewers or cause injury to and/or damage to the health of any person lawfully present in such sewers, pumping stations or sewage treatment works or to make difficult or expensive the treatment or disposal of their contents and in particular but without prejudice to the generality of the foregoing the following matters:-
 - i). petroleum spirit;
 - ii). calcium carbide;
 - iii). halogenated hydrocarbons;
 - iv). any flammable materials;
 - v). any other matter which for any operational or environmental reason may be notified in writing to the Company by the Sewerage Undertaker at any time.
 - d. The Effluent shall not contain any special category effluent defined in Section 138 Water Industry Act 1991 as amended from time to time in a concentration greater than background concentration as defined in the Trade Effluents (Prescribed Processes and Substances) Regulations 1989.

CONTINUATION

4. The maximum rate at which the Effluent may be discharged shall not exceed 2 litres per second, and the maximum volume discharged in any period of 24 hours shall not exceed 8.5 cubic metres.
5. The Effluent shall only be discharged to the Sewer between 00:00 hours and 23:59 hours.
6. The Company shall pay charges to the Sewerage Undertaker for the reception, treatment and disposal of the Effluent discharged to the Sewer. Such charges shall be calculated at the Sewerage Undertaker's published charges for measured used water in force from time to time, and upon the volume of water supplied to the Site.

All sums payable on demand.

7. The Company's attention is drawn to the provisions of Section 122 Water Industry Act 1991 (right to appeal to the Director General of Water Services against any Condition attached to a consent) and Section 124 Water Industry Act 1991 (right of Sewerage Undertaker to vary the conditions attached to a consent).
8. This letter of consent replaces any previous authorisation for the discharges specified above.

Yours faithfully

J. Lingard
General Manager – Commercial Services
