Categories: James

Dear Sirs,

On behalf of DJC Farms Ltd I am submitting an application to vary the above licence by adding further abstraction points following compensatory discharges from a reservoir and transfers to IDB areas. The licensed quantities are to remain unchanged.

Attached below are Parts A, B & C of the application form, a map detailing the additional abstraction points, a schedule of these points and a form WR 339. I will pay the application fee by card when you contact me.

I look forward to your acknowledgement of this application and its determination in due course but please let me know in the meantime if you have any queries.

Kind regards,

Andrew Dennis
Land & Water Consultant
