Re: Permit Variation – Grab & Deliver Limited – EPR/AP3199VG

Dear Sirs,

Please find attached the relevant documents for the permit variation for Grab and Delivered as discussed with Helene Ducrotoy within your pre application team.

With regards to Technical Competence, Peter Barrass, Director at Grab and Deliver currently holds the correct level of technical competence. However, this will be bolstered with support from myself. Therefore, I have also included my original wamitab certification, plus my certificates of continuing competency.

The manufacturer of the proposed wash plant has provided a Noise Impact Assessment, which has also been appended to this application, as a reference only

A cheque for the value of £7137.00 is enclosed within this application also.

If there are any problems, please do not hesitate to let me know.

Yours sincerely

Lindsey Godfrey
