Provision of Further Information

Dear [REDACTED]

Application Reference: EPR/EB3207LH/V005

Operator: Attero Recycling Limited

Facility: Bankwood Lane Waste Processing and Treatment Centre

With reference to your letter dated 12 December 2018 requesting further information regarding the permit variation application and underpayment of application charge with respect to the above site, please find detailed below the additional information regarding the following points.

1. Application Form Part C2

- Q3b – please find enclosed with this response, the Continuing Competency Certificate for Lee Jepson. We can confirm Lee Jepson is the technically competent manager for Bankwood Lane Waste Processing and Treatment Centre only. Part C2 form has been updated accordingly.
- Q3d – please find enclosed with this response, a copy of the ISO14001 Certification.
- Q5e - We can confirm that Attero Recycling Limited accept 'zero contamination status' for the site.

2. Application Form Part C3 - Installations

Please find enclosed with this response Part C3 form completed for Installation Activities.

3. Application Form Part C4 - Waste Operations

- Question 1, table 1a – this table has been amended as requested and is enclosed with this response.

4. Application Form Part F1

The outstanding balance of £17,806 (application fee of £25,443 minus £7,637 as part of the previous variation application that was returned) will be paid by BACS on 19th December 2018. The reference that has been used for this payment is PSCAPPATTER123.

5. Air Dispersion Modelling

As requested, please find enclosed with this response the model input files used in the air quality and odour impact assessment.

Other Points

During the determination stage the following points are noted:

- The requirement to provide an updated air quality impact assessment with input files for all designated habitats within the relevant screening distance for an Installation activity (10km for SACs, SPAs, and Ramsars and 2km for SSSIs, Local Nature Reserves, Local Wildlife Sites and Ancient Woodlands); and
- The requirement to provide a noise impact assessment.

If you have any queries regarding this response, please do not hesitate to contact me by e-mail (c.boles@ecl.world) or by telephone (01443 841760).

We look forward to confirmation the application has been Duly Made.

Yours sincerely,

Clare Boles
