**Subject:** Permit application: Tarmac Trading Ltd, Asphalt Waste Recycling Facility, UP3231QS

Dear Mark,

**We need more information about your application and underpayment of application charge**

**Application reference: EPR/UP3231QS/A001**

**Operator: Tarmac Trading Limited**

## Facility: Asphalt Waste Recycling Facility

Thank you for your application received on 20/11/2018.

Unfortunately the application payment you sent is incorrect. The correct application charge is £22,097. As you have already paid £16,001, this leaves a balance of £6,096 to pay. – Please see previous response on this matter sent on 14/02/19.

Your application charge is calculated as follows:

Type of charge	Activity	Reference	Charge
Baseline activity	Section 5.3 – hazardous waste installation	Table 1.16, 1.16.1	£16,001
Additional installation activity	Section 5.6 – temporary or underground storage of hazardous waste	Table 1.16, 1.16.4 (90% reduction applies; see Part 2 8(3) of charging scheme)	£1,352
Waste operation	Physical treatment of non-hazardous waste	Table 1.16, 1.16.12 (50% reduction applies; see Part 2 8(3) of charging scheme)	£3,965
Habitats assessment		Table 1.19, 1.19.2	£779

I need to ask you for some missing information before I can do any more work on your application. Please provide us with more information to the following questions:

1. Part B3, Table 1a – please split the annual throughput total of 200,000 tonnes per year into hazardous waste and non-hazardous waste. – Annual Waste Inputs updated to 200,000tpa Hazardous Waste and 200,000tpa Non-Hazardous Waste. Form Part B3, Table 1, Management Plan Document and Appendix 3 – Waste Schedule all updated and attached accordingly.
2. Part B3, Table 3a – You need to demonstrate compliance with the Waste Treatment Best Available Technique (BAT) reference document (BREF) (published August 2018) or demonstrate why this is not applicable to this installation. – Please see previous response on this matter sent on 14/02/19.
3. Part B3, Table 3c - You have indicated that Pulverized Fuel Ash (PFA) is a raw material to be used as a product additive. Please amend your management plan to include the use of PFA in the treatment process. – Management Plan updated at Section 2.5 'Raw Materials' to include further information on the use of PFA in the treatment process.
4. Part B3, Section 1 - We consider PFA to be a waste type (European Waste Catalogue code 10 01 wastes from power stations and other combustion plants). Please amend your management plan and list of wastes to include PFA as an accepted waste type or provide justification for excluding this from your list of wastes. – The receipt of PFA for use in the treatment process is done so as a product not a waste. The material is received from suppliers in accordance with a WRAP Quality Protocol Document to an established specification. The Quality Protocol (QP) sets out end of waste criteria for the production and use of PFA arising from combustion activities. If these criteria are met, the resulting outputs will be regarded as having been fully recovered and to have ceased to be a waste. It is fully understood that where producers, processors and users do not comply with the measures set out within the QP (they are not obliged to), the material will normally be considered to be a waste and waste management controls will apply to its use.

5. Site plan – You state in section 2.3.4 of your management plan that ‘clean planings’ will be stored in a separate, clearly identified location away from the tar bound planing stockpiles. Please amend your site plan to show these separate areas. – **Please see attached updated drawings as requested.**

Please send the information, quoting the above application reference, to:

Email address: [psc@environment-agency.gov.uk](mailto:psc@environment-agency.gov.uk) or [laura.gosling@environment-agency.gov.uk](mailto:laura.gosling@environment-agency.gov.uk)

Postal address:

Permitting and Support Centre  
Quadrant 2  
99 Parkway Avenue  
Parkway Business Park  
Sheffield  
S9 4WF

Please send the information and payment within 10 working days of this letter. Details of how to pay are given in Part F of the application form. If we don't hear from you, we must return your application.

When we receive the requested information and payment, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for. We'll let you know by letter whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at: <https://www.gov.uk/government/publications/environmental-permitting-ep-charges-scheme>

If you have any questions please phone me on 0208 4749912 or email [laura.gosling@environment-agency.gov.uk](mailto:laura.gosling@environment-agency.gov.uk)

Yours sincerely,

Laura Gosling
