**Subject:** EPR/VP3425SV/A001 Receipt of Environmental Permitting Application CRM:0349384  
**Date:** 24 June 2024 13:08:00

---

Dear Stephen Bradley

**Environmental Permitting (England and Wales) Regulations 2016**  
**Application reference: EPR/VP3425SV/A001**  
**Operator: Air Products (BR) Limited**  
**Facility: Immingham Green Energy Terminal, LAND OFF QUEENS ROAD, IMMINGHAM, DN40 1QR**

Thank you for your application, received 24/05/2024.

We received your application charge on 31/05/2024.

If your application is for an activity related to a project that has, or will apply for, a Development Consent Order (DCO) please email [NSIPpermit@environment-agency.gov.uk](mailto:NSIPpermit@environment-agency.gov.uk) quoting your permit reference number.

### **What happens next?**

Your application will be allocated for checking and technical assessment as quickly as we can, and we will contact you if we need any further information. If you need to add something, please send it to us at [PSC@environment-agency.gov.uk](mailto:PSC@environment-agency.gov.uk), quoting your application reference.

A permitting officer will check that all relevant information requested in the application forms and application guidance is provided, and will contact you if information is missing.

- Depending on how much information is missing, we may ask you to provide this within a maximum of ten working days. If you do not respond to the request, or what is provided still doesn't meet the requirements, we will return your application.
- If we think there is too much information missing to be provided within 10 working days, we will return your application with a list of what is missing to help you reapply.

If we return your application we will retain 20% of your application charge, capped at £1,500, to cover our costs in reviewing your application. Further details can be found in our [Charging Scheme](#).

If you have used our enhanced pre application advice service, you must ensure you have paid all associated fees before your application can progress.

For more information on the permitting process and the next steps see [Waste: environmental permits](#) or [A1 installations: environmental permits](#).

### **Consultation**

If your application needs consultation with the public and other organisations we use an online consultation tool where we will add all application documents. [Environmental permits: when and how we consult](#) explains which applications we are required to consult on and how long this will take.

We aim to respond to all customer enquiries however, this can have a significant impact on our ability and capacity to progress applications. Please rest assured that we will contact you as soon as there is any update on your application, so please avoid contacting us unnecessarily for updates. For urgent enquiries, you can contact our National Customer Contact Centre on 03708 506 506.

### **Priority Request**

I've passed your priority request on to the relevant permitting team leader for consideration. You should get a response directly from them, rather than from our team.

Yours sincerely,

#### **Wayne Clark**
