Attachments: VPI Immingham Data Request NLC.pdf; NLC SuDS Guidance Published document.pptx

Hi Joanne

With reference to your recent request for information I reply as follows: -

- 1) Surface Water or Groundwater Flooding in area - We are not aware of any within the vicinity of the development.
- 2) Historical Flooding of Watercourses within the area - We are not aware of any within the vicinity of the development. The site lies within an Internal Drainage Board may be able to assist (copied into this email)  
Ref: 9A Drain
- 3) Information on Sewer Surcharging - We are not aware of any within the vicinity of the development (Anglian Water need to be contacted with respect to this).
- 4) Surface Water & SuDS compliance Please refer to our Local SuDS and Flood Risk Guidance Document. The need to comply with the 1 in 100 year plus CC flood event and consideration/implementation of the various SuDS methods relevant to the size of development. The existing site V's the proposed site discharge rates and is the site brownfield or greenfield?
- 5) Mitigation measures - restriction from the site at greenfield run off rate.

The Environment Agency would need to be consulted with respect to fluvial flood risk and finished floor levels etc

Please contact me if you require further information.

Kind Regards,

North Lincolnshire Council Flood Risk Team

Dear All

I am writing to follow up on the data consultation request sent on 19<sup>th</sup> January with regards the above site (see email train below).

I have received a response from Barrie with regards flood risk information, however, I am still waiting for a response from the Council's Drainage Team.

Please can you advise as to when to expect a response?

Kind Regards

Hi Joanne

You should be aware that flood guidance in the form of a SFRA and Development and Food Guidance can be found on our web site. The SFRA is in the policy section and the other guidance is under the planning

application submission guidance. I can confirm that as you state the site lies in EA Flood Zone 3a (and combined SFRA Flood Zone 2/3a). Should you require any SFRA maps please let me know.

Your many questions relate to drainage issues so I have passed your request onto the Council's Drainage Team to answer.

The Drainage Team will answer direct to you or pass onto me to send to you.

Kind Regards

Barrie

Barrie,

You will probably be able to answer some of the questions raised in this info request. I'm not sure who else it has been circulated to as it seems just to be sent to Spatial Planning.

Subject: Data consultation Request - VPI Immingham: Flood Risk Information

Dear Sirs

Please find attached a data consultation request for information to inform a flood risk assessment for a proposed development on a site located at South Killingholme. A site location plan is included to the rear of the attached correspondence.

If you require further information please do not hesitate to contact me.

Kind Regards
