**Subject:** Application Bespoke AQMAU Noise Pre Screening Results - No NIA / NMP Required

Dear Permitting Officer

AQMAU has used the qualitative noise screening tool (QNST) and rules for variations to quantify the risk from noise emissions on this site affecting the surrounding receptors. These checks that show there is a low risk\* from noise emissions from this site affecting surrounding receptors, therefore a noise impact assessment (NIA) / noise management plan (NMP) is not required for this application.

\*This relates to environmental risk only – if this site is deemed to be a high business risk (e.g. is high public interest), please place this application the AQMAU work queue once the application has been duly made.

If you have questions please direct these to ([AQMAU@environment-agency.gov.uk](mailto:AQMAU@environment-agency.gov.uk))

If this application is returned for any reason, please let AQMAU know

Kind regards,  
Rory Peliza
