Dear Jason / Andy

2016 PRICE REVIEW – DRUMMED SOLVENTS

We are hereby giving notice that from the 2nd May 2016; the way in which we charge for drummed waste streams into our Norwood site is to change. The new mechanism will see incoming drummed loads charged in the same manner as bulk loads. This will reduce the administration burden for our site, whilst offering you a new opportunity to dispose of more difficult wastes, at lower cost.

Currently, each individual material being delivered to site is individually priced. This creates a myriad of pricing structures which can be confusing to our clients.

Under the new mechanism, you pay a flat rate for whatever the material is. **Regardless to the chemistry of the individual wastes.**

Our only requirement is that the **batch sample**, taken from a composite of your drums upon arrival, meets a simple base specification for pH, calorific value, halogen & metal content.

In addition to this, we have also reviewed how we apply surcharges for entrained solids to make it easier for you to assess in advance the likely rate for liquid-solid mixtures.

To the authorised safe disposal of **drummed mixed solvents**, our waste reference xx, in full compliance with all current legislation.

| | | | |
|---------------------|----------------------------------|--------|----------|
| Disposal | Based on a batch CV >8000kcal/kg | £15.00 | Per Drum |
| | | £50.00 | Per IBC |
| | Based on a batch CV >5000kcal/kg | £25.00 | Per Drum |
| | | £90.00 | Per IBC |
| Technical Admin Fee | Based on a | £52.00 | Per note |

All prices shown exclude VAT at current rates.

Our proposal is subject to the waste being fully pumpable, <2% combined halogens (nil iodine), negligible heavy metals and no other contaminants. The presence of material above these limits will be subject to a surcharge.

Any sludges present in the waste will be surcharged at the following rates:

In Drums

| | |
|---------------------------------------|-----------------|
| Up to the first drum ring (i.e. 33%) | £0.00 |
| Up to the second drum ring (i.e. 66%) | £30.00 per drum |
| Above the second drum ring | £65.00 per drum |

In IBCs

| | |
|------------------|-----------------|
| Up to 25% sludge | £0.00 |
| Up to 50% sludge | £60.00 per IBC |
| Up to 75% sludge | £160.00 per IBC |
| >75% sludge | £305.00 per IBC |
