Hi [REDACTED]

[REDACTED] Wallingford were able to email direct to me in a zip file, we should be ok without Quatrix. They have added a note below along with the file, this will be on the formal response as well.

"These selected files are simulations carried out for the new proposed diffuser (we assume the simulations for the new diffuser is required for the permit applications) and cover the scenarios that predicted the minimum dilutions (worst cases), which were recorded at High Water +4 hours. In addition, HW+5hrs files are also included. Files for both peak and FFT flows are included.

File names contain the tidal condition (Neap Tide – NT for all files shared), tidal level (HW+4hrs and HW+5hrs), and the flow conditions (FFT or peak flow) of the simulation.

Please note that we are not sharing all the files as we have performed over 150 simulations for this study in total. Based on our experience, these selected cases should be sufficient for the EA's purposes, however, please let us know otherwise."

Kind regards

A [REDACTED]

Morning Amy,

Cormix files in .cmx format would be great.

Could you let me know if you will be able to include all files relating to the RFI response as email

attachment, or if you will need a Quatrix link sent over by Gill?

Thank you,
Lauren

Hi Lauren

I have the cormix files ready to send as part of the RFI due tomorrow.

I wanted to check with you, the file types I've been given are .cmx and .prd – I don't have the relevant software to open and check them, is this a file extension you would expect and be able to open?

Kind regards
Amy

Subject: Request for Further Information - Maer Lane Permits - RESPONSE REQUIRED 09/01/26

Importance: High

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Morning all,

This email is in relation to your applications for permit variations at the following sites:

- Maer Lane Wastewater Treatment Works (003174)
- Maer Lane Storm Tanks (201965)
- Phear Park Pumping Station (200124)
- Maer Road Pumping station (200126)

We have some further questions as a result of the response provided to the first request for information (provided by SWW on 07/11).

Please see the attached letter for the required information.

A response is required by 09/01/2026.

If a response in full is not received your application(s) will be returned and 20% of the application fee(s) retained.

Kind Regards,
Lauren
