

Non-Technical Summary for Maer Road SPST Exmouth

This is a permit variation for Maer Road Sewage Pumping Station. This site is located at SY 02458 80399, in Exmouth, Devon.

As part of the overall strategy for the Exmouth catchment, the pass forward flow from Maer Road Sewage Pumping Station is increasing from 109 litres per second to 700 litres per second.

The aim of this is to increase the capacity of flow taken by Maer Lane Sewage Treatment Works, so the number of spills at the sewage pumping station is reduced. Therefore, this is an important step towards achieving the overall strategy for the Exmouth catchment.

Maer Road Sewage Pumping Station CSO has one outlet that discharges both emergency overflows and storm overflows at SY 01177 79643. The second outlet pipe is shorter and has been proved to be inactive.
