Subject: Re: Application EPR/JP3245QP/A001 - Strawberry Hill Farm - Request for information
Attachments: Incidents and Abnormal Operations.docx; Strawberry Poultry Farm Standby Generator.docx; Technical Standards.docx

Hi Kirsty

1. Operator wishes the site name to be Strawberry Poultry Farm.
2. Houses 3&4 are medium velocity fans, 3.5m release height, Houses 1&2 are high velocity fans, 5.5m release height.
3. Revised document attached.
4. Standby generator document attached.

Regards

Steve

Dear Steve,

Application Reference: EPR/JP3245QP/A001

Operator: JM & ME Harrington & Son

Facility: Strawberry Hill Farm

I've now reviewed the application contents and need to ask you for some more information before I can do any more work on it. Please provide the following:

1. Site name

Please confirm the site name you wish to proceed with as the application form states 'Strawberry Hill Farm' and some of the supporting documents state 'Strawberry Hill Farm Poultry Unit'.

2. Ventilation type

Please can you confirm the efflux velocity and height of the roof fans? The Technical Standards document states high/medium velocity roof fans (with an efflux velocity of 2-7m/s), and other documents state high velocity fans.

3. Supporting documents

The Incidents and Abnormal Operations document refers to 'Quarry Hill Farm Poultry Unit', please provide a revised version.

4. Standby generator

Please can you provide the following details regarding the standby generator:

- a. Confirm if the standby generator is to be used for emergency use only if there is a mains power supply failure.
- b. Confirm the thermal input capacity of the standby generator in MWth.
- c. Confirm how many hours per annum the standby generator is operated for testing purposes.
- d. Confirm the maximum number of hours per annum the standby generator would be used for emergency use, where mains power has gone down.

Please provide the information requested by **08/06/23**. If we don't hear from you, we must return your application.

When we receive the requested information, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for.

We'll let you know whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at: [Environmental permits and abstraction licences: tables of charges - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/environmental-permits-and-abstraction-licences-tables-of-charges)

If you have any queries, please let me know.

Kind regards,

Kirsty
