APPLICATION FOR AN ENVIRONMENTAL PERMIT THE DEPOSIT OF WASTE TO LAND AS A RECOVERY ACTIVITY

APPLICATION REFERENCE – EPR/EB3903CG/A001

Revised Waste Types

The following provides an addendum to the waste types applied for as part of Environmental Permit application reference EPR/EB3903CG/A001, specifically the omission of waste code 17 09 04 (mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03).

The recovered waste will be imported inert fill material sourced from construction sites within the general Swindon area.

To ensure that the recovered waste material is suitable for its intended use, the works will be managed by staff having the appropriate level of technical competence with relevant qualifications gained from one of the accepted industry schemes.

Robust Waste Acceptance Criteria and Procedures will be implemented to ensure that the imported inert fill material used in the works is as described on Waste Transfer Notes, is permitted by the Environmental Permit, is fit for purpose and will not cause environmental harm.

The following waste types are to be provided for in the Environmental Permit (it should be noted that the waste types provide for the importation of uncontaminated wastes from brownfield developments):

Waste types	
Exclusions	
Wastes having any of the following characteristics shall not be accepted:	
- consisting solely or mainly of dusts, powders or loose fibres	
- wastes in liquid form	
Waste code	Description
01	WASTE RESULTING FROM EXPLORATION, MINING, QUARRYING AND PHYSICAL AND CHEMICAL TREATMENT OF MINERALS
01 01	wastes from mineral excavation
01 01 02	wastes from mineral non-metalliferous excavation
01 04	wastes from physical and chemical processing of non-metalliferous minerals
01 04 08	waste gravel and crushed rocks other than those mentioned in 01 04 06
01 04 09	waste sand and clays
17	CONSTRUCTION AND DEMOLITION WASTES
17 01	concrete, bricks, tiles and ceramics
17 01 01	concrete
17 01 02	bricks
17 01 03	tiles and ceramics
17 01 07	mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06
17 05	soil stones and dredging spoil
17 05 04	soil and stones other than those mentioned in 17 05 03

17 05 04 waste will be sourced from greenfield sites and/or will be waste of 'greenfield quality' sourced from brownfield sites (*i.e.* naturally occurring material for which there is no suspicion of contamination based on specific source specific environmental risk assessment, supported as necessary by laboratory analysis).
