[Non Technical Summary.docx](#)

Hi Simon

I can confirm the applicant is Freemans of Newent Limited.

Non tech summary attached.

Incinerator is below 50kg/hour, APHA approval attached.

All roof water (gutters and downspouts) and yard water is piped to nearby ditch, grassed areas under side fans.

Additional fee of £779 will be paid by applicant, will send proof as soon as I receive it, and will take a few days.

Regards

Steve

Good morning

I have picked up this new broiler farm application in Herefordshire

This is a validation case so final deadline is 4 weeks from admin approval date ie from 08/08/24.

I will look at sending duly making questions by the end of the week

In meantime I have three initial questions/requests

1. Operator- I see from your application form applicant is Freemans of Newent Limited. Not sure why our receipt letter states Faccenda Foods Limited. Please confirm Freemans of Newent Limited is correct applicant or please revise application form B3.5 with current applicant
2. Non-Tech Summary- I cannot see this summary. Please provide a single page summary of existing farm and then proposal with location NGR. Please confirm if there is a carcass incinerator that the capacity of unit is < 50 kgs/hour to ensure not a scheduled activity.

Please confirm what attenuation for yard water/side fan roof water streams is in place.

3. Fees. There are European Sites within 5km – hence please provide additional habitat fee - £779. Please give evidence of payment.

[Environmental permits and abstraction licences: tables of charges - GOV.UK
\(www.gov.uk\)](http://www.gov.uk)

If possible please respond by end of this week to allow me to send one final set of questions

Many thanks
