Rodenticide - Vertox	Rodent control	40 kgs	10kgs
c) Veterinary Vaccines/Medicines			
IB491	Bird health and welfare		
MA5	Bird health and welfare		
d) Fuel			
Diesel (within generator)	Bird health and welfare	1000 litres	1000 litres
e) Bedding			
Wood Shavings	Bird health and welfare/absorbent material	2000kgs	Less than 100kgs

Water Usage

Water usage is monitored throughout the rearing cycle and records are kept. A water efficiency audit will be conducted within two years of the permit being granted, in accordance with the SGN EPR6.09.

Avoidance, Recovery and disposal of wastes

A waste minimisation review will be undertaken within two years of the permit being granted, to identify whether appropriate measures need to be updated or changed to ensure that minimal waste is produced.
