EPR KB3607SG/A001 EP Application (RESUBMISSION) Dear

Sir/Madam,

Please find below a link to the EP application referred to above. This application was originally made to PSC in November 2021, but we were unsuccessful in having it duly made and it was subsequently returned to us in June this year. We are now resubmitting the application, addressing the points raised in the non-duly making discussions. Julie Green is copied into this submission; she was the permitting officer involved in all the communications during the duly-making assessment period. Her input was extensive and she is very familiar with the application; we therefore request (at her suggestion) that Julie is assigned to this resubmission.

The original application fee has not yet been (partially) refunded. As such we ask that the fee held by the EA currently is applied to this resubmission. Please can this approach be confirmed as, if in agreement, the applicant will then make payment of the £1500 retained.

Due to the size of some of the application files, WeTransfer has had to be used to submit this application; there is an expiry on these as a result so please can I request that they are downloaded asap so as to avoid the need to re-send them at a later date.

Please also note that in addition to the PDF documents, the submission also includes a compressed (zip) file containing the H1 assessment, and the required CadnaA file and excel data file for the noise impact assessment.

Please can you confirm receipt of this application.

Kind regards
Rebecca Hodkinson
