**Subject:** We need more information about your application EPR/JB3905HY/A001  
**Attachments:** Pasture House Quarry permit

Dear Mr Sharland,

### We need more information about your application.

**Application reference: EPR/JB3905HY/A001**  
**Operator: Marshalls Mono Ltd**  
**Facility: Pasture House Quarry**

Thank you for your application received on 14/20/21. The following is to confirm our conversation of 04/04/23.

I need to ask you for some missing information before I can do any more work on your application. Please provide us with more information to the following questions:

1. You need to send us the modelling data used for the Landsim report. You have included the Landsim model output in the Hydrogeological Risk Assessment but we also need the Landsim model files. The file type for these files is normally in '.sim' format. Further guidance is available here: <https://www.gov.uk/guidance/landfill-operators-environmental-permits/what-to-include-in-your-hydrogeological-risk-assessment>.
2. You need to send us up-to-date groundwater monitoring data. This data needs to be less than six months old and span a minimum time period of 12 months. Please send this in Excel spreadsheet format. Further guidance is available here: <https://www.gov.uk/guidance/landfill-operators-environmental-permits/what-to-include-in-your-hydrogeological-risk-assessment>.
3. You need to send us all the modelling data used to support the Noise Impact Assessment. Computer modelling files should be provided in one of the following formats: '.cna', '.geo', '.gsi', '.qsi' or '.shp'. The background sound monitoring locations and raw survey data should be in Excel spreadsheet format. Further guidance is available here: <https://www.gov.uk/guidance/noise-impact-assessments-involving-calculations-or-modelling>
4. You need to send us evidence that the Technically Competent Manager, John Sully, is registered to attend the appropriate WAMITAB course. This should be the CIWM (WAMITAB) Level 4 Medium Risk Operator Competence for Non-hazardous waste qualification. You have up to 12 months from the date of the permit issue to attend the course. The Environmental Permitting Officers Certificate (EPOC) that you have sent is acceptable for this grace period. Further guidance is available here: <https://www.gov.uk/guidance/legal-operator-and-competence-requirements-environmental-permits#what-a-competent-operator-is>.
5. Please confirm the deposit for recovery purpose that you are applying for in Section 1c of Form B4. We do not consider your application to be for an inert landfill permit that includes a restoration activity using waste. If you have indicated the incorrect purpose, please send updated versions of all application forms that include or reference this activity. Further guidance is available here:

<https://www.gov.uk/government/publications/application-for-an-environmental-permit-part-b4-new-bespoke-waste-operation>.

Our specialists may also ask you to clarify what the nearest sensitive receptor is on your Noise Impact Assessment. We will also need a more accurate void space calculation. You do not need to provide this information now and it will not prevent your application from being duly made. We are making you aware of this now for your convenience only.

Please send the information, quoting the above application reference, to:

Email address: [psc@environment-agency.gov.uk](mailto:psc@environment-agency.gov.uk)

Postal address:

Regulated Industry Team, Permitting Support, NPS Sheffield  
Quadrant 2  
99 Parkway Avenue  
Parkway Business Park  
Sheffield  
S9 4WF

Please send the information within 10 working days of this letter.

If we do not receive the information within 10 working days, we will return your application.

If we do receive the requested information within 10 working days, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for.

We'll let you know by letter whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at: <https://www.gov.uk/government/publications/environmental-permits-and-abstraction-licences-tables-of-charges>

If you have any questions please phone Georgia Pathy on 07442 943907 or email [georgia.pathy@environment-agency.gov.uk](mailto:georgia.pathy@environment-agency.gov.uk). For your reference, I have also included a copy of my original email to you.

Yours sincerely,  
Georgia
