

About this consultation

L33 7TQ, Mulberry Waste Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Mulberry Waste Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/ZP3439RM/V004
- Regulated facility type: The current permit authorises crushing/shredding of waste fluorescent tubes, metal containers, oil filters, Waste Electrical and Electronic Equipment (WEEE), End of Life Vehicles and their components. It also authorises the storage, manual and mechanical sorting/separation and repackaging of hazardous and non-hazardous waste.
The substantial variation requests the addition of a new activity S5.3 A(1) a) ii) to recover mercury using a mercury retort. In addition the proposal will include the installation of new equipment and plant which will improve waste recycling and treatment. This includes a new fluorescent tube and flat screen crusher which can crush and separate waste components for recovery, new waste material sorters (eMax and float: sink tank) , a new shredder and a new diesel generator.
- Regulated facility location: Knowsley Waste Facility, Stockpit Road, Knowsley Industrial Park, Knowsley, Merseyside, L33 7TQ

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk
