

About this consultation

L36 6JF, FCC RECYCLING (UK) LIMITED: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for FCC RECYCLING (UK) LIMITED. Please use the reference number below when making comments on this application.

- Permit Number: EPR/JB3633RP/V006
- Regulated facility type: The Site is situated 620m north-northwest of Junction 6 of the M62, approximately 2.5km to the southwest of Prescott. The River Mersey is located over 7.2km to the southeast at its closest point and leads to the Mersey Estuary over 15km to the west. National Grid Reference of the centre of the site is SJ 45870 90085. This variation application is to accept up to 120,000 tonnes per annum of Mixed Dry Recyclables (MDR), residual Municipal Solid Waste (MSW) and other wastes from household, commercial and industrial sources for bulking up within concrete bays in the building prior to transferring off-site for further recovery and/or recycling. All delivery, handling, storing and loading of wastes into vehicles will be undertaken within the building
- Regulated facility location: Arpley 2 Waste Transfer Station, Stretton Way, Huyton, L36 6JF

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.
