LIST OF TABLES:

Table 1	EMS Summary	4
---------	-------------------	---

1 INTRODUCTION

1.1 BACKGROUND

- 1.1.1 Crestwood Environmental Ltd ('Crestwood'), was commissioned by Shoby Poultry Partnership to undertake an Environmental Permit application for the expansion of the facility at Fosseway 775, Thrussington, Melton Mowbray, LE7 4TG ('the Site'). This document represents the accompanying Environmental Management System.
- 1.1.2 An EMS is a document required by a permit and a typical permit condition 1.1.1 states that, "*The operator shall manage and operate the activities... in accordance with a written management system*" and "*records demonstrating compliance with rule 1.1.1 shall be maintained.*"
- 1.1.3 The complexity of an EMS is proportionate to the Proposed Development and the site specific EMS will be developed in accordance with the latest Environment Agency Guidance (available at [Develop a management system: environmental permits - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/develop-a-management-system-environmental-permits) and [Intensive farming: comply with your environmental permit](https://www.gov.uk/guidance/intensive-farming-comply-with-your-environmental-permit)).
- 1.1.4 The EMS will explain how S & L Hatcheries Ltd will manage their activities whilst minimising the risk to the environment. This document provides the proposed structure and summarises the content of the EMS.

2 Environmental Management System Summary

2.1 EMS Structure

2.1.1 The EMS will be structured in a format which is accessible to operators, contractors and regulators and will be readily available on Site. The EMS will include the following sections:-

- (1) Normal Operations
- (2) Maintenance Schedule and Records
- (3) Incidents and Abnormal Operations
- (4) Complaints System
- (5) Accidents
- (6) Training
- (7) Site Security
- (8) Review of Installation Plans
- (9) Climate Change Adaptation
- (10) Site Closure

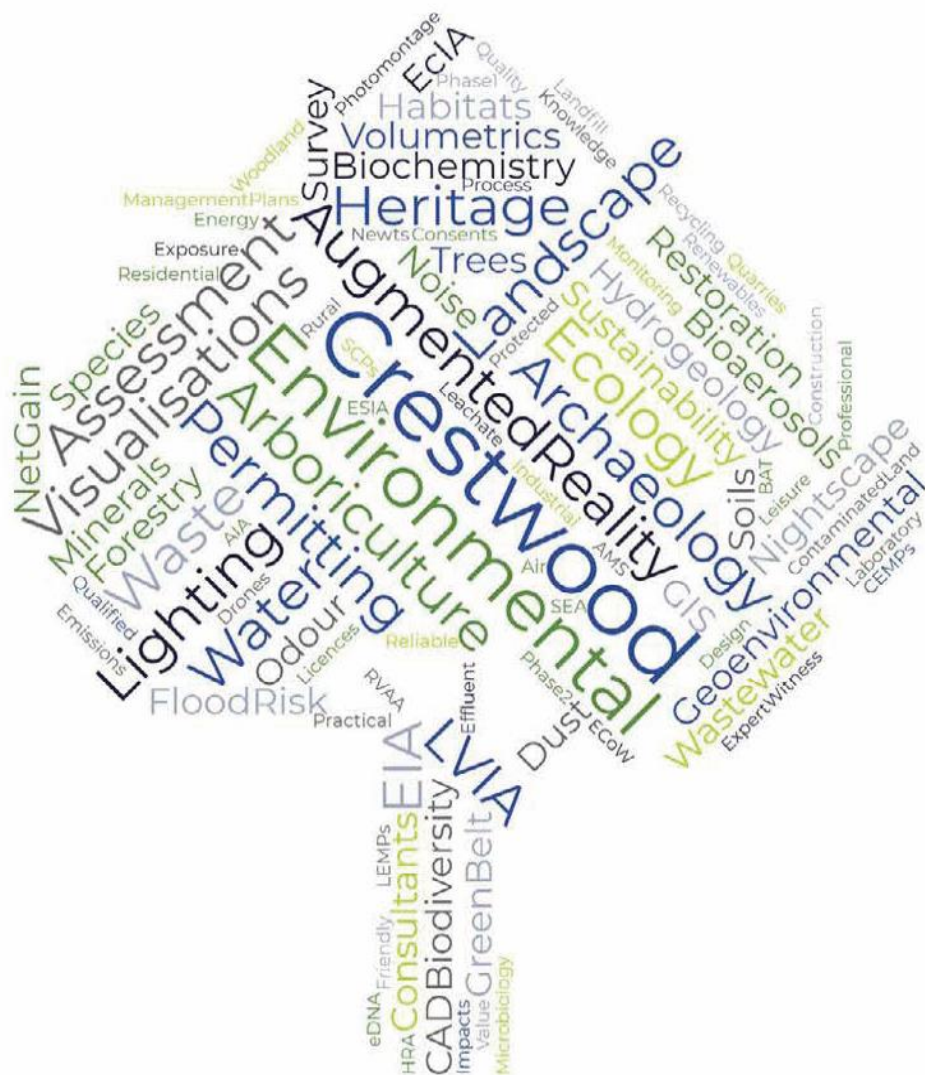

2.2 EMS Details

2.2.1 The content of the EMS is summarised in **Error! Reference source not found.** below.

Table 1 EMS Summary

Section		Description
1	Normal Operations	Details normal operations and records.
2	Maintenance Schedule and Records	Details of maintenance recommendations and records of all faults, maintenance work and inspections kept onsite.
3	Incidents and Abnormal Operations	Identification of incidents and abnormal operations.
5	Complaints Procedure	Methodology for dealing with a complaint including; records, investigation and action.
6	Accident Prevention and Management Plan	A plan describing how to deal with incidents or events that have the potential to pollute the environment or result in a non-compliance to the permit. CE-FW-2414-RP04-ERA
7	Training	Roles and responsibilities of staff will be defined along with training and of staff or contractors.
8	Site Security	The Site security onsite, including locked gates and signs.
9	Review of Installation Plans	Details on reviews of all plans and how it is recorded.
10	Changing Climate	Considerations of how a changing climate could affect installations or ability to comply with the permit.
11	Site Closure	Key aspects of operation of the installation which are intended to leave the site in a satisfactory condition to allow for surrender of the permit. CE-FW-2414-RP05-CR
