---

Hi Steve,

Could you address the points below please to enable me to duly make the application:

- There appear to be two sensitive receptors within 400m of the installation boundary, at grid coordinates 530874,395942 and 531140,395016. If these are not linked to the installation, please submit a noise management plan (NMP) and an odour management plan (OMP).
- If there are sensitive receptors within 400m of the installation boundary, please update questions 8b and 8c of application form Part C3.5, and the technical standards document, to confirm an OMP and NMP is required.
- If there are sensitive receptors within 400m of the installation boundary, please update the BAT document to consider odour monitoring.

Please submit the outstanding information by **06/01/26**.

Kind regards

Kate
