Dear Mr Ayres

Leadenham Landfill Site - Construction Quality Assurance Report for the Development of Cell 4

Thank you for submitting the above Construction Quality Assurance (CQA) Report for the above mentioned works.

We have reviewed the document and inspected the works and are satisfied they have been completed in accordance with the CQA plan.

The Environment Agency therefore approves the CQA Report.

However, it should be noted that some of the appendices were mixed up and it was difficult to review the report but we do not require a corrected version.

Should you have any queries with the content of this letter please do not hesitate to contact the undersigned.

Yours sincerely

Jim Branson
Technical Specialist (Groundwater & Contaminated Land)
