

File Note Regarding Files

Due to the amount of files and how they have been submitted, some of them have been merged into single PDFs with other documents that have the same file pre-fix.

File Note Regarding Modelling Files In Winzip Folder

These files require specialist software, which isn't normally used by the general public. If you wish to view the modelling files but cannot open the documents, please contact the Permitting & Support Centre on 0203 025 3898 or email psc@environment-agency.gov.uk
