

## About this consultation

### LN5 8HN, Ultimate Demolition and Construction Service Limited: environmental permit consultation

#### **The aim of this consultation is to ask whether you have any comments relevant to the permit application**

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Ultimate Demolition and Construction Service Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/WE3418AB/V004
- Regulated facility type: Application is to vary from the standard rules SR 2008 no 11, which was superseded by SR2022 no 1. The site cannot meet the requirements of SR2022 no 1 and requires the change from the SR 2008 no 11 to a bespoke equivalent. The application will not change EWC codes of tonnages and these will be based on the expired SR 2008 no 11. A Dust Emissions Management Plan has been submitted for assessment to ensure the risk of dust is assessed.
- Regulated facility location: The Old Bottle Yard, Great Northern Terrace, Lincoln, LN5 8HN

#### **Non-Technical Summary**

Refer to the non-technical summary which explains this application, in non-technical language. This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

#### **What the response will be used for**

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meet all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

#### **How to Respond**

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact [PSCpublicresponse@environment-agency.gov.uk](mailto:PSCpublicresponse@environment-agency.gov.uk)

#### **How we will use your information**
