

Dovecote Park Limited- Skellingthorpe

Document Reference: DPSK0019- Legal Operator

Dovecote Park Limited will be the legal operator of the Effluent Treatment Plant (ETP) and its activities.

Dovecote Park Limited maintenance team will receive comprehensive training from the Effluent Treatment Plant supplier with process training by an in-house consultant. This training will ensure that Dovecote have sufficient control of the effluent treatment plant by:

- having day-to-day control, including the manner and rate of operation
- Ensuring permit conditions are complied with
- deciding who holds important staff positions and have incompetent staff removed, if required
- make investment and financial decisions that affect the facility's performance or how the activity is carried out
- make sure your activities are controlled in an emergency

The ETP will have a remote monitoring system including a final effluent sampling chamber enabling daily flow to be measured. This remote monitoring ensures flow can be stopped at any time with turbidity and ammonia meters installed with alarms to provide remote effluent quality monitoring, ensuring compliance with permit conditions.
