Dear Mr Saul,

Re: Skelton Grange Road Site, Skelton Road, Stourton, Leeds
Your Ref: P/11/03705/FU/MIN

Thank you for consulting the Health Protection Agency (HPA) on 11 April 2012 on the above planning application for the development of an Energy from Waste facility. The correspondence relates to additional information provided by the applicant.

It should be noted that this response relates only to additional information provided by the applicant in documents "Additional Information... 584402" & "Additional Information... 584403" and should be considered in conjunction with the HPA's initial response (ref: P/11/03705/FU/MIN/LIC), dated the 5th December 2011.

As noted in the HPA's previous response, within the application documents, and also within relevant policy, detailed assessment of pollution prevention and control matters will be considered and regulated by the Environment Agency under the Environmental Permitting regime.

Given this, and the HPA's position on emissions from municipal waste incinerators as outlined in our letter of the 5th December last year (and available at <http://www.hpa.org.uk/Publications/Radiation/DocumentsOfTheHPA/RCE13TheImpactonHealthofEmissionstoAirfromRCE13/>), the HPA has no additional comments to make in relation to this application at this stage.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Jamie Bond'.
