10th December 2012

Dear Mar. Saul,

**Revised plans relating to ERF , associated imfrastructure & improvements to access and bridge**

I write further to our letter of 28th November which should be disregarded. The latest consultation refers to the feasibility of widening Skelton Bridge should such works be deemed necessary as a consequence of the development. It should be noted that Yorkshire Water has a right of way over the bridge to our Knostrop Waste Water Treatment Works and requires access at all times. If the bridge had to be closed to facilitate improvement works, YW must be given sufficient notice to make other access arrangements.

I trust the above is helpful, but if you require additional information, please contact me at the above address

Yours faithfully

Stephanie Walden  
Land Use Planning Manager
