27th April 2012

Dear Mr. Saul,

Skelton Grange Road Stourton Leeds - Energy Recovery Facility (incineration of waste and energy generation), associated infrastructure and improvements to access and bridge

Thank you for providing further information regarding the above proposed development. You are aware that we had regards concerning the location of public water supply infrastructure within the boundary of the development site. Our water distribution team has confirmed to me that they have had discussions with the developer. We do not appear to have had confirmation that the developer will pay for the abandonment of the water mains, although the submitted supplementary information does suggest (para 6.6/6.7) that this is the case. If the developer could supply this confirmation direct to me, I will be happy to drop the objection to the proposal (I apologise if a letter of confirmation does exist).

I trust the above is helpful but if you require further information, please contact me again.

Yours faithfully

Stephanie Walden
Land Use Planning Manager
