Dear Mr Saul,

Planning consultation: Energy Recovery Facility (incineration of waste and energy generation), associated infrastructure and improvements to access and bridge

Location: Skelton Grange Road Stourton Leeds

Thank you for your consultation dated and received by Natural England on 02 November 2012.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England has previously commented on this proposal and made comments to the authority in our letter dated 16 April 2012.

The advice provided in our previous response applies equally to this amendment although we made no objection to the original proposal.

The proposed amendments to the original application relate largely to plans, and are unlikely to have significantly different impacts on the natural environment than the original proposal.

Should the proposal be amended in a way which significantly affects its impact on the natural environment then, in accordance with Section 4 of the Natural Environment and Rural Communities Act 2006, Natural England should be consulted again.

Yours sincerely

A handwritten signature in black ink, appearing to read "Mis Rachel Bowden". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
