

About this consultation

LS9 0NX, O.C.O Technology Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for O.C.O Technology Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/TP3737YG
- Regulated facility type: The facility treats air pollution control (APCR) residues to produce an aggregate. Waste is delivered by powder tanker and transferred into silos. From the silos, material is fed into a reactor where it is treated with carbon dioxide to reduce pH and limit the leachability of heavy metals. The treated material is then mixed with cement, sand and water to form pellets. Pellets are placed in curing bays. All processing activities take place within a building.
- The variation application is proposing to increase the annual throughput from 120,000 tonnes to 150,000 tonnes. It also proposing to use the two existing binder storage silos to be repurposed for waste storage, increasing total silo numbers from 10 to 12 and storage capacity from 2,375 tonnes to 2,850 tonnes.
- Regulated facility location: Leeds Aggregate Manufacturing Facility, Knowsthorpe Gate, Leeds, LS9 0NX

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.
