1	INTRODUCTION	.1			
1.1	Note	1			
1.2	VARIATION PROPOSALS	1			
2	PERMITTED OPERATIONS	.3			
2.1	OPERATIONS	3			
2.2	EMS	3			

1 <u>Introduction</u>

1.1 <u>Note</u>

- 1.1.1 This Environmental Management System (EMS) Summary accompanies an application to vary an Environmental Permits (EP) currently held by UBU Environmental Ltd (the Operator).
- 1.1.2 The Operator undertake waste operations at Moss Lane, Worsley, Manchester, M283LY authorised by Environmental Permit Ref. RP3498CT (the Permit).
- 1.1.3 The site is currently operated as a physical treatment facility accepting construction and demolition waste for treatment to produce soil, soil substitute or aggregate product.

1.2 Variation proposals

- 1.2.1 The proposed variations to this permit are clearly set out below:
- 1.2.2 The Operator seeks to vary the Permit to:
 - Include blending, crushing and screening in the list of activities authorised under the physical treatment of non-hazardous waste activity ref. 1.16.12.
 - Add new physical and chemical treatment of waste activity ref. 1.16.14 and the following treatment activities:
 - Washing
 - Centrifuging
 - De-watering
 - The throughput of the 1.16.14 activity will be less than 75,000 tonnes per annum.
 - The total combined throughput will be 185,000 tonnes for the two activities combined

- Amend the description of EWC code 17 09 04 in the 1.16.12 to "Mixed C&D waste arising only from 17 01 and 17 05 codes" as the site is not accepting combustible waste
- Include additional waste types and amend the description of some waste types which can already be accepted at the site as detailed in Section 2.2.
- 1.2.3 Waste types accepted on site will be divided depending on which treatment operation it is due to be undertaken.
- 1.2.4 The waste codes to be included in the permit for each activity are outlined in the nontechnical summary of this permit application.

2 <u>Permitted operations</u>

2.1 **Operations**

2.1.1 It is proposed the site can accept, store and treat the following under the two separate activities:

Activity	Max. treatment per day (tonnes)	Max treatment per annum (tonnes)	Max storage quantity (tonnes)
1.16.12 - Physical treatment of non- hazardous waste	750	110,000	40,000
1.16.14 - Physical and chemical treatment of waste	500	75,000	10,000

2.2 <u>EMS</u>

- 2.2.1 The full EMS will be prepared on behalf of UBU Environmental Ltd to meet the requirements of the following:
 - The Environmental Permitting (England and Wales) Regulations 2016
 - Develop a management system: environmental permits
 - Technical Guidance WM3: Waste Classification Guidance on the classification and assessment of waste
 - The Waste duty of care: code of practice 2018
 - Sector Guidance Note S5.06: recovery and disposal of hazardous and nonhazardous waste
- 2.2.2 Other relevant guidance on GOV.UK will be referenced when compiling all other supporting management plans.
- 2.2.3 The proposed EMS which will be implemented once the variation is issued will be contain the following sections to ensure compliance with the above guidance:
 - General Considerations details of the permit, site and permit holder

- Site Management
- Site Operations including treatment methods and compliance with Duty of Care
- Environmental Control. Monitoring and Reporting
- Emergency Procedures
- Adapting to Climate Change & Weather Conditions
- Training for Site Staff
