

Learning Agreement

This agreement is made between Environmental Leadership Ltd (ELL) and:

KAS METAL TRADING

(The Company)

for the provision of learning support leading towards the completion of a qualification in waste management:

HROCTa

(the Qualification)

It is agreed that the following learner will be registered on the above qualification:

STEPHEN COWRY

(The Learner)

It is agreed that the Company will provide the Learner with sufficient support to enable them to complete the qualification, with it understood that a re-registration will be needed if the qualification is not completed within 2 years of CIWM (WAMITAB) registration.

It is understood that time and additional roles and responsibilities may be needed where current duties do not enable the necessary evidence to be collected. It is understood that the Learner needs to complete work in relation to the Qualification and that there can be no guarantee of success. It is also understood that any additional support provided may incur an additional charge, which will need to be agreed between the Company and ELL before it is provided.

It is agreed that an assessor allocated by ELL will be provided with the necessary access to the Learner and the Company systems to enable them to make a judgement against the qualification standard. It is also agreed that the assessor will be permitted to take appropriate photographs/videos of the site operations and documents as may be required in order to make a judgement against the qualification standard.

It is agreed that information on the Learner's progress in relation to their qualification may be released to the Company and also, as appropriate, to an authorised officer of a Regulator without the need to obtain the prior consent of the Learner. It is also confirmed that the Learner has been provided with a copy of the Centre and CIWM (WAMITAB) Fair Processing Notices and is aware of the way that their data will be handled.

It is agreed that fees and charges will be paid as specified and it is understood that work in relation to the qualification may cease until such payments are made. In addition, it is understood that action to recover outstanding payments will be undertaken, to include legal recourse where deemed necessary. It is understood that all fees and charges in relation to such action will be recovered from the Company.

Documentary evidence and photographs/videos taken during the process remain the property of the Company. It is agreed that in the event of the Learner leaving the employment of the Company, such items, where held by the Centre, will be returned to Company Head Office address, or other notified Company address, or destroyed. ELL will be notified as soon as possible if the Learner leaves the Company.
