A summary of the complete management system for the site is detailed within Tables 1 to 4 below. This includes site specific procedures detailed in Tables 1 and 2 and site infrastructure plans and drawings in Table 3. The management systems review history is contained within Table 4.

These site-specific documents are accompanied by SUEZ's overarching Integrated Management System (IMS) comprising quality, environmental and health and safety requirements which are certified to ISO 14001, ISO 9001 and ISO 45001 standards. It should be noted that SUEZ IMS system is a live system and is continually updated. The full SUEZ IMS covers all SUEZ activities, therefore not all sections of the IMS are applicable to a particular site type. References to relevant sections are made within the site-specific documents.

These referenced documents describe how SUEZ Recycling & Recovery UK Ltd as the operator, on behalf of the permit holder Gateshead Metropolitan Borough Council, will minimise the risk of pollution from the activities at Cowen Road Waste Reception and Recycling Centre HWRC (the site) which is operated under Environmental Permit (the permit) EPR/XP3093NK.

All SUEZ operations are controlled by an Integrated Management System (IMS) comprising quality, environmental and health and safety requirements which are certified to ISO 14001, ISO 9001 and ISO 45001 standards.
